WATER SOUL

## ASM TAPS

**ASM TAPS S.A.** foi fundada em 1987 pelo seu atual sócio-gerente Eduardo Gonçalves. De estrutura familiar e com a marca inicial de **ASM TORNEIRAS**, abriu espaços de presença e consolidou a marca nos mercados onde está presente, contando para o efeito com a experiência do seu sócio fundador e da equipa colaboradora que com ele iniciou este projeto, criando coleções de torneiras inspiradas em elementos da natureza, design, arquitetura e moda, sem esquecer a evolução tecnológica, a qualidade e o respeito pelo meio ambiente.

**ASM TAPS** tem um horizonte e imagem de futuro, porque entende as expectativas dos mercados e dos consumidores deste tipo de produto, por isso cria tendências e soluções por forma a assegurar a máxima rentabilidade e eficácia dos seus modelos.

**ASM TAPS** oferece uma ampla gama de produtos que disponibiliza a arquitetos, designers de interior, instaladores e consumidores finais, soluções para os seus projetos, mediante as suas necessidades. Um serviço que inclui produtos, informação e aconselhamento técnico, bem como estudo de soluções pensadas e criadas à sua medida.

A qualidade do produto é considerado como sendo o resultado de um controlo rigoroso de cada fase do processo de produção, combinada com matéria prima de primeira qualidade, motivos pelos quais desde 2011 **ASM TAPS** é uma empresa detentora de um Sistema de Gestão da Qualidade (**SGS**) certificado de acordo com a norma **NP EN ISO 9001:2015**.

## ASM TAPS

**ASM TAPS S.A.** a été fondée en 1987 par son actuel gérant associé Eduardo Goncalves. De structure familiale et sous la marque initiale **ASM TORNEIRAS**, a ouvert des espaces de présence et consolidé le marque sur les marchés où est présent, en raison de l'expérience de son partenaire fondateur et l'équipe de collaborateurs, qui, avec lui, a initié ce projet, par le biais de la création de collections de robinetterie inspirée par les éléments de la nature, design, architecture et la mode, sans oublier l'évolution technologique , qualité et respect de l'environnement.

**ASM TAPS** a un horizon et une image de l'avenir, car comprend les attentes des marchés et des consommateurs de ce genre de produit, par ce que crée les tendances et les solutions afin d'assurer une rentabilité maximale et l'efficacité de leurs modèles.

**ASM TAPS** propose une large gamme de produits qui offre aux concepteurs d'intérieurs, architectes, installateurs et utilisateurs finaux, des solutions à leurs projets, selon leurs besoins, pour assurer le service qui comprend des produits, informations et conseils techniques, ainsi que l'étude des solutions conçues et créées à votre mesure.

La qualité du produit est considéré comme le résultat d'un contrôle strict de toutes les étapes du processus de production, combiné avec des matières premières de qualité supérieure, raisons pour lesquelles, depuis 2011 **ASM TAPS** est une entreprise avec un système de gestion de qualité (**SGS**), certifié selon la norme **NP EN ISO 9001:2015**.

## ASM TAPS

**ASM TAPS S.A.** was founded in 1987 by its current managing partner Eduardo Gonçalves. Of family structure and under the initial mark of **ASM TORNEIRAS** opened spaces of presence and consolidated the brand in markets where it is present, due to the experience of their founding partner and the collaborative team, that with him initiated this project, through the creation of collections of faucets inspired by elements of nature, design, architecture and fashion, without forgetting the technological evolution, quality and respect for the environment.

**ASM TAPS** has a horizon and image of the future, because understands the expectations of markets and consumers of this kind of product, by what create trends and solutions to ensure maximum profitability and efficiency of their models.

**ASM TAPS** offers a wide range of products that provides designers of interiors, architects, installers and end users, solutions to their projects, according to their needs. A service that includes products, information and technical advice, as well as study of solutions designed and created to your measurement.

The quality of the product is considered the result of a strict control of every step of the production process, combined with raw materials of top quality, reasons that since 2011 **ASM TAPS** is a company with a (**SGS**) quality management system, certified according to the norm

**NP EN ISO 9001: 2015.**

## ASM TAPS

**A ASM TAPS S.A.** fue fundada en 1987 por su actual Socio Gerente Eduardo Gonçalves. De estructura familiar y bajo la marca inicial de **ASM TORNEIRAS** abrió espacios de presencia y consolidó la marca en los mercados donde está presente, debido a la experiencia de su socio fundador y del equipo colaborador, que con él inició este proyecto, mediante la creación de colecciones de griferías inspiradas en elementos de la naturaleza, diseño, arquitectura y moda, sin olvidar la evolución tecnológica la calidad y respeto al medio ambiente.

**ASM TAPS** tiene un horizonte e imagen de futuro, porque entiende las expectativas de los mercados y de los consumidores de este tipo de producto, por lo que crea tendencias y soluciones para garantizar la máxima rentabilidad y eficiencia de sus modelos.

**ASM TAPS** ofrece una amplia gama de productos que proporciona a diseñadores de interiores, arquitectos, instaladores y usuarios finales, soluciones a sus proyectos, de acuerdo con sus necesidades. Un servicio que incluye productos, información y asesoramiento técnico, así como estudio de soluciones diseñado y creado a su medida.

La calidad del producto se considera ser el resultado de un estricto control de cada fase del proceso de producción, combinado con materias primas de primera calidad, razones por las que desde 2011 **ASM TAPS** es una empresa con un sistema de gestión de calidad (**SGS**) certificado según la norma **NP EN ISO 9001: 2015.**

Apesar de o nosso foco principal ser o mercado nacional, a ampla gama e a elevada qualidade dos produtos ASM TAPS têm conduzido à expansão da marca por vários países.

#### **International Presence:**

Although our main focus is the national market, the wide range and high quality of products ASM TAPS have led to the expansion of the brand for several countries.

#### **Présence Internationale:**

Bien que notre but principal est le marché national, la large gamme et haute qualité de produits ASM TAPS ont conduit à l'expansion de la marque pour plusieurs pays.

#### **Presencia Internacional:**

Aunque nuestro principal enfoque sea el mercado nacional, la amplia gama y la alta calidad de los productos ASM TAPS han conducido a la expansión de la marca para varios países.

# TECNOLOGIA ASM TAPS

O mais precioso líquido do planeta cai do céu, é indissociável da vida na terra e a sua disponibilidade, foi e sempre será uma condição essencial à fixação de população e ao desenvolvimento de todas as atividades humanas. Os especialistas dizem que apenas 3% da água do planeta é água doce. É por isso que fabricamos torneiras com baixo consumo de água, por forma a preservarmos este bem precioso.

## ASM TAPS Technology

The most precious liquid on the planet falls from the sky, it is inseparable from life on earth and its availability was and always will be an essential condition to the establishment of population and the development of all human activities. Experts say that only 3% of the planet's water is fresh water. That's why we make mixers with low water consumption, in order to preserve this valuable resource.

## Technologie ASM TAPS

Le bien plus précieux liquide dans la planète, ça tombe vers le ciel, elle est inséparable de la vie sur terre et sa disponibilité a été et sera toujours une condition essentielle à la population de la fixation et le développement de toutes les activités humaines. Les spécialistes disent que 3 % de l'eau du planète est l'eau douce. C'est la raison pour laquelle nous fabriquons nos robinets à faible consommation d'eau, de façon à préserver ce bien précieux.

## Tecnología ASM TAPS

El líquido máspreciado en el planeta cae del cielo, es inseparable de la vida en la tierra y su disponibilidad, fue y siempre será una condición esencial para el establecimiento de la población y el desarrollo de todas las actividades humanas. Los expertos dicen que sólo el 3% del agua del planeta es agua dulce. Es por eso que hacemos grifos con bajo consumo de agua, para preservar este valioso recurso.

**ECO STOP** As nossas torneiras dispõem de um sistema de duas posições de caudal. Ao abrir o manípulo, o usuário nota uma resistência até um primeiro ponto, aqui está acionado 50% do caudal. Se o utilizador desejar o máximo de caudal, deverá abrir o manípulo na segunda posição. **ECO STOP** Our basin mixers have a double flow position. This system offers the possibility to save water because when the consumer open the mixer, they notice a resistance point where 50% of the flow is provided. If the consumer wants, they can achieve maximum flow. **ECO STOP** Nôtres robinets ont un système de deux positions de flux. À l'ouverture de la manette, l'utilisateur remarque une résistance jusqu'au premier point, ici est actionné le flux. Si l'utilisateur souhaite le maximum de flux, il doit ouvrir la manette dans la deuxième position. **ECO STOP** Nuestros monomandos disponen de un sistema de doble posición de caudal, lo que permite el ahorro de agua. Al accionar la palanca para abrir el grifo, el usuario nota una resistencia a un primer punto, donde se suministra el 50% del caudal. Si el usuario desea el caudal máximo debe abrir la palanca en la segunda posición.

**ABERTURA ECONÓMICA** O nosso sistema permite fazer a abertura total da água fria na posição central do manípulo, evitando assim o arranque das caldeiras, esquentadores e o consumo de água quente. Assim, teremos uma poupança de energia e respeito pelo meio ambiente. **ECONOMIC OPENING** Our system offers the possibility of opening the cold water only with the central position of the handle, avoiding the start of boilers, water heaters and hot water consumption. That way, we will have a saving of energy and respect for the environment. **OUVERTURE ECONOMIQUE** Notre système permet de faire une ouverture totale de l'eau froide dans la position centrale de la manette, et éviter ainsi le démarrage de la chaudière, chauffe-eau et la consommation de l'eau chaude. Comme ça, nous avons une économie d'énergie et respect pour l'environnement. **APERTURA ECONÓMICA** Nuestro sistema permite realizar la apertura total de agua fría desde la posición central del mango, evitando el arranque de las calderas, calentadores y el consumo de agua caliente. De esta manera, tendremos un ahorro energético y el respeto por el medio ambiente.

**LIMITADOR DE CAUDAL** Os nossos limitadores de caudal permitem determinar o caudal máximo que se deseja, reduzindo o consumo de água, mas mantendo o conforto para o usuário. **FLOW LIMITER** Our water limiting systems allow determine the maximum flow wanted, reducing water consumption and maintaining comfort of use. **RÉGULATEUR DE FLUX** Nôtres régulateurs de débit permet déterminé le flux maximum qu'on veut, ce qui réduit la consommation de l'eau, en conservant un confort correct pour l'utilisateur. **LIMITADOR DE CAUDAL** Nuestros limitadores permiten determinar qué caudal máximo se desea, reduciendo el consumo de agua y manteniendo el confort de uso.

**SISTEMA TERMOSTÁTICO** Evita o risco de queimaduras, assim como o consumo excessivo de água quente. Permite limitar a temperatura máxima com o bloqueio do botão no manípulo da misturadora. **THERMOSTATIC SYSTEM** This system avoids the risk of burns and the excessive consumption of hot water. It permits to limit the maximum temperature with the button lock on the mixer handle. **SYSTÈME TERmostatique** Ce système évite le risque de brûlures, ainsi que la consommation excessive de l'eau chaude. Permet limiter la température maximale avec le bouton de verrouillage sur la poignée du mitigeur. **SISTEMA TERmostático** Se evita el riesgo de quemaduras, así como el consumo excesivo de agua caliente. Permite limitar la temperatura máxima con el bloqueo del recorrido de la palanca en los monomandos.

**DURABILIDADE** As nossas torneiras destacam-se sobretudo pela sua grande resistência, uma vez que todos os seus componentes externos são metálicos, o que permite uma grande durabilidade com o passar do tempo. **DURABILITY** Our mixers are really resistant due all their external components are metallics, offering durability over time. **DURABILITÉ** Nôtres robinets se distinguent surtout pour la grande résistance, une fois que tous les composants externes sont métalliques que nous permet une longue durabilité pendant que le temps passe. **DURABILIDAD** Nuestra grifería destaca sobretodo por su gran resistencia ya que todos sus componentes externos son metálicos, lo que permite una gran durabilidad con el paso del tiempo.

**SENSIBILIDADE** Os nossos cartuchos permitem regular comodamente a temperatura desejada. Além disso os nossos cartuchos termostáticos reagem em menos de 1 segundo a variações de temperatura e caudal, mantendo a temperatura solicitada. **SENSITIVITY** Our cartridges can regulate the desired temperature comfortably. Furthermore, our thermostatic cartridges react in less than one second to temperature variations and can maintain the required flow temperature.

**SENSIBILITÉ** Nos cartouches permettent régulier la température désirée confortablement. De plus, nos cartouches thermostatiques réagissent en moins de 1 seconde, au changement de température et flux en maintenant la température requise. **SENSIBILIDAD** Nuestros cartuchos permiten regular cómodamente la temperatura deseada. Además, nuestros cartuchos termostáticos reaccionan en menos de un segundo a variaciones de temperatura y caudal manteniendo la temperatura solicitada.

**ASM TAPS** pratica um controlo de qualidade em todos os processos de produção, assegurando assim um elevado nível de qualidade a todos os produtos que fabricamos. A utilização de matérias prima de primeira qualidade e um controlo rigoroso nos processos de manipulação dos materiais garantem ao consumidor a alta qualidade do produto **ASM**.

As nossas matérias-primas de elevada qualidade são produzidas na Alemanha, Holanda e Itália. Utilizamos em exclusivo ligas de latão amigas do ambiente, CB7555S (latão fundido) e CW614N (barra de latão);

A nossa cromagem é fruto de vários anos de experiência garantindo uma perfeita nivelação de espessuras das peças, com um nível de micragem de 10-12 µ de níquel e de 0,25 a 0,30 µ de cromo, garantindo uma forte resistência ao desgaste, com um brilho duradouro e inalterável.

As nossas peças são testadas a nível de estanqueidade e visualmente a 100%.

**ASM TAPS** applies quality control in all production processes, ensuring a high quality level to all products we manufacture. The use of first quality materials and a rigorous control in the handling processes guarantees the consumer the high quality of the **asm** product.

Our high quality raw materials are produced in Germany, Holland and Italy. We use only environmental friendly metal leagues: CB7555S (brass brass) and CW614N (brass bar);

Our chroming is fruit of several years of experience ensuring a perfect level of thicknesses of the pieces, with a micrage level of 10-12 µ nickel and 0,25 to 0,30 µ chromium, guaranteeing a strong resistance to wear with a durable and unalterable brightness.

Our parts are tested at 100% visually and at the level of seal

**ASM TAPS** applique un contrôle de qualité en tous les processus de production, pour cela assure un élevé niveau de qualité à tous les produits qu'on fabrique. L'utilisation de matières premières de première qualité et un rigoureux contrôle dans les processus de manipulation des matériaux garants au consommateur une très élevé qualité du produit **asm**.

Nôtres matières premières élevées qualités sont fabriqués dans Allemagne, Hollande et Italia. En exclusivité, nous utilisons d'alliages de laiton favorable à l'environnement, CB7555S (fusion laiton) et CW614N (barre laiton);

Le chromage est fruit de beaucoup d'années d'expérience, laquelle est garantie un parfait mis à niveau d'épaisseur pour les pièces, avec un niveau de micrage de 10-12 µ de níquel et de 0,25 à 0,30 µ de chrome, assuré une forte résistance au niveau d'usure avec un inaltérable durabilité et lumineux.

Toutes nôtres pièces sont testées à 100%, soit visuellement que ce soit au niveau d'étanchéité.

**ASM TAPS** aplica un control de calidad en todos los procesos de producción, garantizando así un alto nivel de calidad en todos los productos que fabricamos. El uso de materias de primera calidad y estricto control en el proceso de manipulación de materiales, garantizan al consumidor la alta calidad del producto **asm**.

Nuestras materias primas de alta calidad son producidas en Alemania, Holanda e Italia. Utilizamos solamente ligas de metal amistadas ambientales: CB7555S (latón fundido)

y CW614N (barra latón);

Nuestro cromado, fruto de varios años de experiencia, garantiza una perfecta nivelación de espesores de las piezas, con un nivel micragem de 10-12 µ níquel y 0,25 a 0,30 µ cromo, garantizando una resistencia fuerte al desgaste con un brillo duradero e inalterable.

Nuestras piezas se ensayaron a 100%, visualmente y al nivel de sello.

THERMOSTATIC | THERMOSTATIQUE | TERMOSTÁTICAS

## TERMOSTÁTICAS ASM

### CONFORTO, SEGURANÇA E ECONOMIA

#### O QUE É?

Uma misturadora termostática mantém a temperatura selecionada durante todo o duche. Se alguém utilizar água quente noutra parte da casa, a temperatura do chuveiro permanecerá sempre constante.

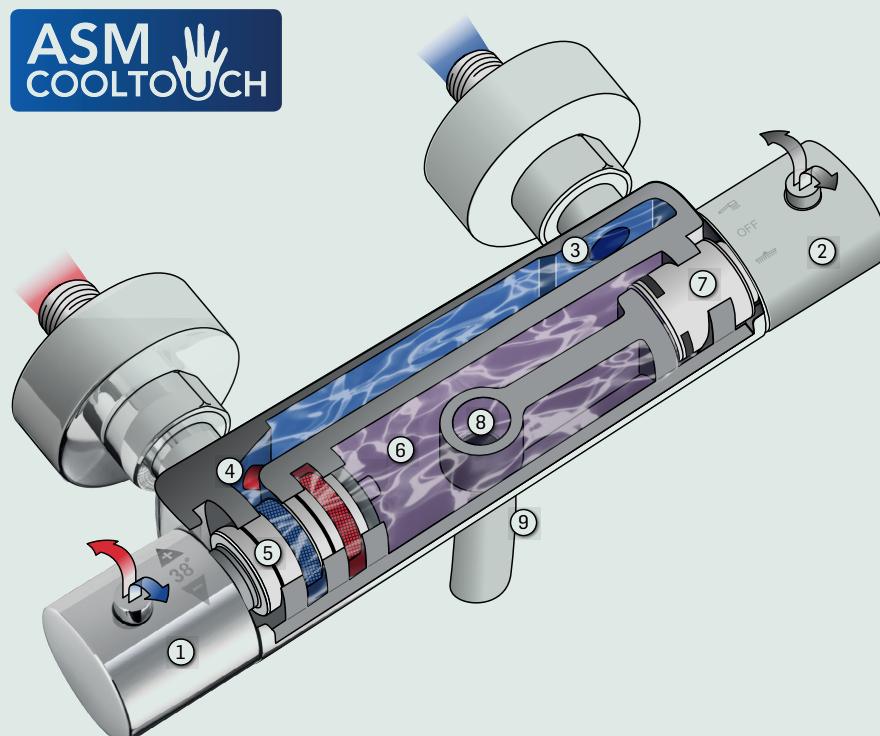

#### COMO FUNCIONA?

A válvula termostática mistura a água quente e a água fria para alcançar a temperatura selecionada e reage instantaneamente a qualquer alteração da pressão ou da temperatura da água de abastecimento, reajustando a mistura de água quente e água fria. Se a água fria for totalmente cortada por acidente, as torneiras termostáticas reagem imediatamente e deixam de fornecer água quente, evitando assim queimaduras.

#### QUAIS AS VANTAGENS?

Segurança: limita o acesso às temperaturas elevadas e diminui assim fortemente o risco de queimadura. Ainda a tecnologia **ASM COOL TOUCH** assegura que a superfície externa da misturadora termostática nunca se torne quente demais para tocar, evitando assim queimaduras tão frequentes quer em crianças quer em pessoas mais idosas.

Economia: com uma misturadora termostática poderá economizar água e energia. As misturadoras termostáticas permitem realizar mais de 50% de economia de água face às misturadoras tradicionais, logo há também economia de energia porque não será necessário aquecer uma quantidade tão grande de água. Comodidade e conforto: a temperatura pré-selecionada alcança-se em segundos e mantém-se sempre constante, mesmo que feche a água por alguns minutos, a misturadora termostática reencontra automaticamente a temperatura exata quando reiniciar o banho.

## **THERMOSTATIC ASM**

### **CONFORT, SAFETY AND ECONOMY**

#### **WHAT IS IT?**

A thermostatic mixer maintains the selected temperature throughout the shower. If anyone using hot water elsewhere in the house, the temperature of the shower will always remain constant.

#### **HOW IT WORKS?**

The thermostatic valve mixes hot and cold water to reach the selected temperature and reacts instantly to any change of pressure or the temperature of supply water, readjusting the mix of hot and cold water. If the cold water is completely cut off by accident, the thermostatic taps reacts immediately and stop to provide hot water, in way to avoid burns.

#### **WHICH THE ADVANTAGES?**

Safety: Limits access to high temperatures and thus strongly reduces the risk of burn. Still the **ASM COOL TOUCH** technology ensures that the outer surface of the thermostatic mixing never becomes too hot to touch, thus avoiding burns so commons, in children or elderly people.

Economy: With a thermostatic mixer can save water and energy. The thermostatic mixing allow more than 50% water savings compared with the traditional mixers, so there is also energy saving because isn't necessary to heat such a large amount of water. Commodity and comfort: The preselected temperature can be reached in seconds and always remains constant even with the water closed by few minutes. The thermostatic mixer automatically finds the exact temperature with the bath restart.

## **THERMOSTATIQUES ASM**

### **CONFORT, SÉCURITÉ ET ÉCONOMIE**

#### **C'EST QUOI?**

Un mitigeur thermostatique maintient la température sélectionnée pendant toute la durée de votre douche. Si quelqu'un utilise l'eau chaude dans une autre partie de la maison, la température de l'eau de votre douche restera constante.

#### **COMMENT ÇA MARCHE?**

La valve thermostatique mélange l'eau chaude et l'eau froide pour atteindre la température sélectionnée et réagi instantanément à tout changement de pression ou température d'eau de la source, réajustant le mélange d'eau chaude et froide. Si par inadvertance on coupe totalement l'eau froide, les robinets thermostatiques réagissent immédiatement et coupent l'eau chaude évitant ainsi des accidents et des brûlures graves.

#### **QUELS SONT LES AVANTAGES?**

Sécurité : limite les températures trop élevées et diminue fortement le risque de brûlures. En plus, la technologie **ASM COOL TOUCH** assure que la superficie externe du mitigeur thermostatique ne sera

jamais brûlante au toucher, évitant ainsi les accidents de brûlures si fréquents chez les enfants et les personnes âgées.

Économie : Avec un mitigeur thermostatique pourrez économiser de l'eau et de l'énergie. Les mitigeurs thermostatiques vous assurent plus de 50% d'économie d'eau en comparaison avec les mitigeurs traditionnels et cela se traduit aussi en économie d'énergie, car ne pas nécessaire chauffer une grande quantité d'eau chaude.

Commodité et confort : la température préselectionnée obtenue en quelques secondes et celle-ci se maintiendra constante, même si on ferme l'eau pour quelques minutes. Le mitigeur thermostatique retrouve automatiquement la même température quand vous recommencerez votre douche.

## **TERMOSTÁTICOS ASM**

### **CONFORT, SEGURIDAD Y ECONOMIA**

#### **¿QUÉ ES?**

Un mezclador termostático mantiene la temperatura seleccionada a lo largo de la ducha. Se alguien utiliza el agua caliente en otra parte de la casa, la temperatura de la ducha permanece siempre constante.

#### **¿CÓMO FUNCIONA?**

La válvula termostática, mezcla agua caliente y fría para alcanzar la temperatura seleccionada y reacciona instantáneamente a cualquier cambio de presión o de la temperatura del suministro del agua, haciendo el reajuste de la mezcla de agua caliente y fría. Si el agua fría se corta completamente por accidente, los grifos termostáticos reaccionan inmediatamente y dejan de proporcionar agua caliente para evitar quemaduras.

#### **¿CUÁLES LAS VENTAJAS?**

Seguridad: Limita el acceso a las temperaturas elevadas y disminuye así fuertemente el riesgo de quemaduras. Incluso la tecnología **ASM COOL TOUCH** asegura que la superficie externa del mezclador termostático nunca llega a ser demasiado caliente al tacto, evitando quemaduras tan frecuentes tanto en niños como en personas mayores.

Economía: Con un mezclador termostático se puede ahorrar agua y energía. La mezcladora termostática permite ahorrar más de 50% del agua en comparación con los mezcladores tradicionales, por lo que también se ahorra energía ya que no es necesaria calentar una gran cantidad de agua.

Comodidad y confort: La temperatura previamente fijada llega en segundos y siempre permanece constante, incluso si se cierra el agua durante unos minutos, la mezcladora termostática vuelve a encontrar automáticamente la temperatura exacta cuando reinicie el baño.

## PT

### Acaba de adquirir um produto ASM TAPS.

Os nossos produtos são criados de acordo com as suas necessidades e desejos, fabricados segundo os mais modernos processos e recorrendo a matérias-primas de elevada qualidade. Todos os produtos são submetidos a um rigoroso controlo de qualidade.

Para garantirmos que obtém sempre a maior satisfação e prazer na utilização da sua torneira ASM, pedimos que leia as instruções de manutenção abaixo indicadas.

Para limpeza da torneira nunca use esponjas, esfregões ou produtos abrasivos. Produtos de limpeza que contenham solventes ou ácidos não devem, nem podem, ser utilizados. Se usar este tipo de produtos a sua torneira perde o brilho e fica riscada, uma vez que eles atacam a superfície da torneira.

Para que a sua torneira brilhe e se mantenha sempre com o aspeto de nova, basta que a lave com um pano húmido e sabão. De seguida, passe por água limpa e seque com um pano macio. Para evitar manchas de calcário, basta secar a torneira após cada utilização.

Os produtos ASM são garantidos por um período de 10 anos, após a sua aquisição, estando os seus componentes garantidos por 2 anos. A garantia só é válida mediante apresentação do documento comprovativo de compra com a indicação da respetiva data de aquisição.

Todos os produtos ASM são garantidos contra defeitos de fabrico desde que instalados por técnicos qualificados. Aconselhamos a instalação de torneiras com filtro.

A garantia não implica a troca integral do produto podendo limitar-se à reposição das peças defeituosas ou responsáveis pelo inadequado funcionamento do produto. Não podem ser imputados custos de mão-de-obra, deslocação nem qualquer outra indemnização por inadequada instalação ou utilização do produto.

### A garantia dos produtos ASM TAPS não é aplicável em caso de:

- Excesso de pressão (pressão máxima recomendada 3/4 Bars máximo);
- Falta de torneiras de filtro;
- Instalações não coincidentes com as normas em vigor e aplicáveis ao produto;
- Inadequada e incompleta montagem dos componentes e respetivos acessórios;
- Degradação de qualquer elemento de vedação originado pela acumulação de elementos estranhos;
- Desgastes e deterioração em mecanismos, vedantes, válvulas e outros provocados pela composição da água;
- Manutenção inexistente (limpeza da torneira, filtros, reguladores de jato (perlatores)...);
- Limpeza com produtos abrasivos ou que contenha, solventes, ácidos ou outros químicos suscetíveis de deteriorar o acabamento;
- Inadequada manipulação dos produtos como: golpes, riscos (marcas provocadas por apertos com chaves e elementos cortantes) e quedas;
- Reparações inadequadas;
- Insuficiência de água quente e instalação inadequada de água quente (quando aplicável)

## EN

### You have just bought a ASM TAPS product.

Our products are designed to meet your needs and desires, manufactured using the latest technology and raw materials of the highest quality standards. All products are subject to rigorous quality control.

In order to get the best satisfaction and enjoyment when using your ASM mixers, we ask you to read the maintenance instructions outlined in this document.

When cleaning mixers, please do not use sponges, scouring other abrasive products. Cleaning products that contain solvents or acids should never be used. If you use one of these products, your mixer will be scratched and will lose its shine since they will attack the surface.

In order to maintain a shiny finish to your mixers, only need to clean it using a wet cloth and soap. Rinse it with

clean water and use a soft cloth for drying. To avoid lime deposits you just need to ensure to dry your mixer each time after use.

ASM products are guaranteed for a period of 10 years after purchase, and components for a period of 2 years.

The guarantee is only valid with proof of purchase showing the purchase date.

All ASM products are guaranteed against manufacturing defects when installed by qualified technicians.

We advise the installation of filtered taps.

The guarantee does not imply total replacement of product. It may be limited to replacement of parts either defective or responsible for the inadequate functioning of the product. Labour and travel costs as well as any

indemnification for the improper installation or use of the product cannot be attributed to ASM.

## ASM TAPS product's guarantee is not applicable in the following situations:

- Excess pressure (maximum recommended pressure 3/4 Bars max);
- Lack of mixed filter;
- Installation not according to the norm or not applicable to the product;
- Inadequate or incomplete installation of the components or accessories;
- The wear of any sealing elements due to the accumulation of foreign bodies;
- Wear or tear in mechanisms, sealants or other components when caused by water decay;
- Insufficient maintenance (cleaning of tap, filters, jet regulators (perlators),...);
- Cleaning with abrasive products or products containing solvents, acids or other chemicals liable to damage the finish of the mixer;
- Improper use of the products such as: Cuts, scratches (due to the use of wrenches or cutting instruments) and dropping;
- Inadequate repair;
- Lack of hot water and/or below standard installation of hot water (when applicable).

## Venez achetez un produit ASM TAPS

Nos produits sont créés en fonction de vos besoins et désirs, fabriqués selon les procédés les plus modernisant en utilisant des matériaux de hautes qualités.

Tous les produits sont soumis à un contrôle rigoureux de qualités.

Pour s'assurer que vous obtenez toujours la plus grande satisfaction et de plaisir dans l'utilisation de votre robinet ASM, nous vous demandons de lire instructions ci-dessous.

Pour nettoyer le robinet ne jamais utiliser d'éponges, tampons à récurer ou de produits abrasifs. Produits de nettoyage contenant des solvants ou acides ne doivent pas et ne peuvent pas être utilisés. Si vous utilisez ces types de produits, votre robinet perd sa brillance et se rayer, car ils attaquent la surface du robinet.

Pour que votre robinet brille et garde cet aspect de neuf, il suffira de le laver avec un chiffon mouillé et du savon. Ensuite, rincer et essuyer avec un chiffon doux. Pour éviter des taches de calcaires, simplement sécher après chaque utilisation.

Les produits ASM sont garantis pour une période de 10 ans après son acquisition, avec ses composants garantis pendant 2 ans.

La garantie n'est valable que sur présentation d'une preuve d'achat à sa date d'acquisition.

Tous les produits ASM sont garantis contre défauts de fabrication lorsqu'ils sont installés par des techniciens qualifiés. Nous vous recommandons l'installation de robinet avec filtre.

La garantie n'implique pas le produit intégral, l'échange pourrait se limiter à des remplacements de pièces défectueuses ou responsables de la mauvaise utilisation du produit. Ne peut pas être imputés les coûts demains-d'œuvre, déplacement où indemnisation pour une mauvaise installation où utilisation du produit.

## La garantie du produit ASM TAPS ne s'applique pas si:

- Suppression (pression maximale recommandée 3/4 Bars max);
- Manque de filtre robinet;
- L'installation ne coïncide pas avec les règles en vigueur et applicables au produit;
- Assemblage inadéquat et incomplet des composants et des accessoires ;
- Aucune dégradation de son origine éléments d'étanchéité par l'accumulation d'éléments étrangers;
- L'usure et les mécanismes de dégradation, joints, vannes et autres causés par la composition de l'eau;
- Entretien inexistant (nettoyage des filtres du robinet, jet régulateur,...);
- Nettoyage avec des produits abrasifs ou contenant des solvants, acides ou autres produits chimiques qui sont susceptible d'affecter le fini;
- Une mauvaise manipulation des produits comme: les escroqueries, les risques (éléments coupants) et chutes;
- Réparations incorrectes;
- Manque d'eau chaude et installations incorrectes d'eau chaude (les cas échéants).

## ES

### Termina de comprar un producto ASM TAPS.

Nuestros productos son creados de acuerdo con sus necesidades y deseos, fabricados según los más modernos procesos y recurriendo a materias primas de gran calidad. Todos los productos son sometidos a un riguroso control de calidad.

Para asegurarnos que obtiene siempre la mejor satisfacción y placer en el uso de su grifo ASM, le pedimos que lea las instrucciones de manutención que aparecen a continuación.

Para limpiar el grifo, no use esponjas, estropajos o productos abrasivos. Productos de limpieza que contengan disolventes o ácidos, no deben, ni pueden utilizarse. Si utiliza este tipo de productos, su grifo pierde su brillo y queda rayada, porque los mismos atacan la superficie del grifo.

Para que su grifo brille y se mantenga siempre con el aspecto de nueva, es suficiente lavarla con un paño húmedo y jabón. En seguida enjuague con agua limpia y se seca con un paño suave. Para evitar las manchas de calcáreo, secar el grifo después de cada uso.

Los productos ASM tienen garantía de 10 años, después de su compra y sus componentes 2 años. La garantía solo es válida con presentación del documento comprobante de compra, con la indicación de su respectiva fecha. Todos los productos ASM tienen garantía contra defectos de fabricación, siempre que instalados por técnicos cualificados. Aconsejamos la instalación de grifos con filtro.

La garantía no implica el cambio integral del producto, se puede limitar solo al suministro de las piezas con defecto o responsables por el inadecuado funcionamiento del producto. No pueden asignarse costos de mano de obra o dislocación, ni cualquier otra compensación por inadecuada instalación o utilización del producto.

#### La garantía de los productos ASM no es aplicable en el caso de:

- Exceso de presión/presión máxima que se recomienda 3/4 bar máximo;
- Falta de grifos con filtro;
- Instalaciones no coincidentes con las reglas en vigor aplicables al producto;
- Montaje inadecuado e incompleto de los componentes y respectivos accesorios;
- Degradación de cualquier elemento de sello que se originó por la acumulación de elementos extraños;
- Desgaste y deterioro en mecanismos, sellos, válvulas y otros causados por la composición del agua;
- Mantenimiento nulo (limpieza, filtros, reguladores de chorro, aireadores,...);
- Limpieza con productos abrasivos o que contengan disolventes, ácidos u otros productos químicos que puedan dañar el acabado;
- Manejo inadecuado de los productos como: golpes, arañazos (marcas causadas por apretones con llaves y elementos afilados) o por caídas;
- Reparaciones inadecuadas;
- Falta de agua caliente e instalación incorrecta de agua caliente (se procede).

## CONDIÇÕES GERAIS DE VENDA

### 1. Introdução

a) As transações de compra e venda efetuadas entre a ASM TAPS, SA (Vendedor) e o seu Cliente (Comprador), encontram-se submetidas às presentes Condições Gerais de Venda. As Condições Gerais de Venda consideram-se aceites pelo Cliente logo que este efetue qualquer encomenda à ASM TAPS, SA.

# CONDICIONES GENERALES DE VENTA

## 1. Introducción

a) Las transacciones de compra y venta hechas entre ASM TAPS, SA (Vendedor) y su Cliente(Comprador), quedan sometidas a las presentes Condiciones Generales de Venta. Las Condiciones Generales de Venta se consideran aceptadas por el Cliente cuando hace un pedido a ASM TAPS, SA.

## 2. Pedidos

- a) Los pedidos pueden ser hechos por el Cliente por teléfono, e-mail, fax o personalmente. En caso de duda o litigio solo serán tenidos en cuenta los pedidos confirmados por el Comprador a través de fax u otro documento remitido a ASM TAPS, SA debidamente llenado con indicación del código y descripción del producto.
- b) Los pedidos pueden ser parcialmente satisfechos, a menos que el Cliente indique lo contrario.

## 3. Plazo de entrega

- a) Todas las informaciones respeto a plazos de entrega son previsiones, por lo que no hay lugar a eventuales solicitudes de indemnización o rechazo de mercancías por cualquier retraso.

## 4. Devoluciones

- a) Todas las devoluciones de productos están sujetas a aceptación previa por parte de ASM TAPS, SA.
- b) A las devoluciones autorizadas se pueden deducir gastos con la recepción, prueba, inspección y devaluación, acordadas caso por caso con el cliente.

## 5. Precios

- a) Los precios son válidos, salvo ruptura de stock o errores tipográficos y pueden cambiar sin aviso previo.
- b) A los precios mencionados acrece el IVA a la tasa legal vigente a la fecha de la factura.

## 6. Condiciones de pago

- a) Las condiciones de pago están establecidas en la factura, cuando no esté en vigor otro tipo de acuerdo.
- b) El retraso en el pago dará lugar a un aumento de intereses y la suspensión de las entregas, incluso de pedidos ya confirmados.
- c) Ningún pago puede ser retrasado, aunque exista una reclamación o retraso de envío de otros pedidos.
- d) La mercancía seguirá siendo propiedad de ASM TAPS, SA hasta su pago por completo.

## 7. Transporte y Reclamaciones

- a) El Cliente debe verificar las mercancías cuando se entregan y reclamar cualquier discrepancia verificado en el momento de la entrega.
- b) Las reclamaciones se consideran válidas sólo si se notifica por escrito en el plazo máximo de 8 días, después de la recepción de la mercancía. Pasado este período, no se considerarán las reclamaciones relativas a la calidad o cantidad de artículos entregados.
- c) El coste de transporte se cargará en la factura, a menos que haya un acuerdo escrito entre ambas partes.

## 8. Garantías

- a) Los productos ASM TAPS tienen una garantía de 10 años después de su adquisición y sus componentes garantizados por 2 años. La garantía solo es válida si se presenta el documento de compra con indicación de la respectiva fecha de adquisición.
- b) La garantía cubre todo defecto de fabricación, siempre que se cumplan las normas de instalación y mantenimiento, si no ocurre, la garantía quedará anulada.

## 9. Litigio

- a) En el caso de litigio, el Tribunal competente es el fuero del distrito de Braga (Portugal).
