Especificações:

Porta metálica reversível e económica, construída com dupla chapa de aço e preenchida com poliestireno expandido, proporcionando assim uma estrutura mais sólida.

Aro perfilado em "Z" para trabalhar à face do vão, preparado para chumbar ou aparafusar.

Equipada com fechadura, canhão de perfil europeu com três chaves e um par de puxadores pretos em nylon.

Acabamento:

Lacado branco
 Revestido a PVC à cor de Faia ou Carvalho

Features:

Economic and reversible metal door, built with a double steel plate and filled with expanded polystyrene, providing a more solid structure.

Z shaped frame profiles for mortar embedment or to fasten with screws.

Equipped with lock, european cylinder with three keys and a pair of black nylon handles.

Finishing:

White lacquered
 Beech or laminated oak

Caractéristiques:

Porte métallique réversible et économique, construit avec une double plaque en acier et rempli de polystyrène expansé, fournissant ainsi une structure plus solide.

Huisseries profilé en "Z" affleurant, préparé pour être scellé à plomber ou vissé.

Equipé avec serrure, cylindre de profil européen avec trois clés et une paire de poignées en nylon noir.

Finition:

Laquée blanc
 Revêtu en PVC à la couleur de hêtre ou de chêne

PORTA CORTA-FOGO MAGMA | MAGMA FIRE DOOR | PORTE COUPE-FEU MAGMA

Especificações:

Porta metálica com grau de resistência ao fogo de 60 | 90 minutos, construída com duas chapas de aço galvanizado e preenchida com lã de rocha, conferindo assim as suas propriedades de resistência ao fogo e uma estrutura mais sólida.

Aro fabricado em chapa de aço galvanizado e guarnições equipadas com fita intumescente para os fumos quentes. Fornecido com três garras para ser chumbado à parede ou aparafusado a um pré-aro.

Equipada com duas dobradiças reguláveis em aço galvanizado com sistema de mola de auto-fecho e cilindro de chave de bombeiro ou Yale.

Acabamento:

Porta lacado branco ou revestida a PVC à cor de Faia ou Carvalho. Aro revestido a PVC lacado a branco ou castanho.

Features:

60 minutes fire rated metallic door, built with two galvanized steel plates and a stone wool insulation core panel, thus giving its fire-resistant properties and a more sturdy structure.

Door frame manufacture with galvanized steel sheet and architraves equipped with intumescent tape for hot fumes. Supplied with three claws to be anchored to the wall or bolted to the sub frame.

Equipped with two galvanized steel hinges with a self closing adjustable spring and an Yale cylinder.

Finishing:

White lacquered and beech or oak laminated
White or brown PVC coated door frame

Características:

Porte métallique de résistance au feu CF60, construit avec deux plaques d'acier galvanisé et remplis avec de la laine de roche, donnant ainsi ses propriétés de résistance au feu et une structure plus solide.

Les huisseries sont fabriquées en plaques d'acier galvanisé et chambranles équipées avec un ruban intumescent adhésif pour des fumées chaudes. Livrée avec trois griffes pour être ancrée au mur ou vissée au pré-cadre.

Equipé avec deux charnières en acier galvanisé avec une ressort réglable de auto-fermeture et une cylindre Yale.

Finition:

Porte laquée blanc ou revêtu en PVC à la couleur de hêtre ou de chêne
Huisserie revêtu en PVC blanc ou marron

RESISTÊNCIA À INTRUSÃO

O ensaio consiste na aplicação de forças nos pontos de fecho e entre os pontos de fecho de cada porta.

INTRUSION RESISTANCE

The test subjects doors to the application of high pressure forces on the locking points and between those points.

RESISTANCE À L'INTRUSION

Le test consiste dans l'application des forces sur les points verrouillage et entre les points de chaque port.

UNE-EN 1634-1:2000 / NF EN 13501-2 / PR NF EN 1634-1

RESISTÊNCIA AO FOGO

Determinação da resistência ao fogo e estanquidade aos fumos.

FIRE RESISTANCE

Determination of fire resistance and smoke leakage rates.

RÉSISTANCE AU FEU

Détermination de la résistance au feu et de l'étanchéité aux fumées.

NF EN ISO 10077-1 e 10077-2

ISOLAMENTO TÉRMICO

Determinação do coeficiente de isolamento térmico.

THERMAL INSULATION

Determination of heat insulation coefficient.

ISOLATION THERMIQUE

Détermination du coefficient d'isolation thermique.

PN-ENV 20140-3:1999

ISOLAMENTO ACÚSTICO

Determinação do isolamento acústico e ruído aéreo.

SOUND INSULATION

Determination of sound insulation and airborne noise.

ISOLATION ACOUSTIQUE

Détermination de l'isolation acoustique et le bruit aérien.
