10 years of love

CELEBRATING DESIGN AND CREATIVITY

São os ventos da mudança que reafirmam os conceitos que nos fazem líderes. De todas as nossas criações, hoje estamos confiantes no que construímos. Do que fomos. Do posicionamento estratégico ao crescimento sustentado. Do que nos tornamos com todos os processos de design, gestão e produção. Somos a nova geração. Somos o encontro entre o passado e o presente com soluções de futuro, com a mesma qualidade, a mesma força. Juntos somos mais inovação, mais criatividade. Juntos há 10 anos a construir o seu projeto.
Love Tiles, 10 anos a celebrar design e criatividade.

It is the winds of change that reassure the concepts that make us leaders. After all our creations, we believe even more in our work and what we have accomplish. What we were. From a strategic position to a solid growth. What we have become with the design, management and production developments. We are a new generation. We are the fusion between the past and the present with future solutions, with the same quality, the same strength. Together we are more innovation, more creativity. 10 years together building your project.
Love Tiles, 10 years celebrating design and creativity.

Ce sont les vents de changement qui réaffirment les concepts qui nous font leaders. De toutes les créations, nous sommes aujourd'hui confiants dans ce que nous construisons et de ce que nous avons été. De notre positionnement stratégique à la croissance soutenue. De tout ce que nous sommes devenus suite à toutes nos méthodes de design, gestion et production. Nous sommes la nouvelle génération. Nous sommes la rencontre entre le passé et le présent, avec des solutions d'avenir, avec la même qualité et la même force.. Nous sommes ensemble plus d'innovation, plus de créativité. Ensemble depuis 10 ans construisant votre projet.
Love Tiles, 10 ans célébrant le design et la créativité.

Es ist das Klima der Veränderung, das uns in den Konzepten bestätigt, die uns zu Leadern werden lassen. Nach all unseren Produktentwicklungen glauben wir mehr denn je an unseren Weg und das bisher Erreichte. Wo wir herkommen. Von strategischer Position zu solidem Wachstum. Dank Design, Management und kontinuierlicher Produktentwicklung. Wir sind die neue Generation. Wir sind der Schulterschluss aus Vergangenheit und Gegenwart gepaart mit Zukunftslösungen, getragen von der gleichen Qualität und der gleichen Stärke. Gemeinsam erreichen wir mehr Innovation, mehr Kreativität. Zusammen vor 10 Jahren, um Ihr Projekt zu bauen.
Love Tiles, 10 Jahre Design und Kreativität feiern.

Ветры перемен, которые вновь и вновь делают нас лидерами в своем направлении. После всех наших творений, сегодня мы уверены как никогда в том, куда движемся дальге. Не забываем кем мы были. Стратегическое планирование дальнейшего развития, управление, проектирование и производственно-технологичесие инновации обеспечивает нам устойчивый рост. Мы представляем новое поколение. Мы как встреча между прошлым и настоящим. Вместе мы создаем что-то новое, творим. Вместе вот уже 10 лет мы строим свой проект.
Love Tiles отмечает 10-летие совместного творчества.

Sono i venti del cambiamento che riaffermano i concetti che fanno di noi dei leader. Dopo tutte le nostre creazioni, oggi abbiamo fiducia in quello che abbiamo costruito. In ciò che siamo stati. Dal posizionamento strategico a una solida crescita. In ciò che siamo diventati grazie allo sviluppo del design, del management e della produzione. Siamo una nuova generazione. Siamo l'incontro tra il passato e il presente con soluzioni per il futuro, con la stessa qualità, la stessa forza. Da 10 anni insieme a costruire il tuo progetto
Love Tiles, 10 anni a celebrare design e creatività

ANTIDERRAPANTE

Em zonas de risco de escorregamento, a aplicação de material antiderrapante reduz consideravelmente o risco de escorregamento.
Alguns dos indicadores usados na medida do coeficiente de fricção são:
DIN 51130 – o ângulo de inclinação atingido durante o teste de resistência ao escorregamento. Esta norma determina as propriedades antiderrapantes dos pavimentos utilizados em lugares onde se transita com pés calçados.
DIN 51097 - norma que se utiliza para zonas húmidas com possibilidade de circular de pé descalço (zonas de piscina, balneários, etc)
BS 7976 - o teste é feito na forma horizontal pois foi desenhado para replicar o contacto do pé com o solo até ao ponto onde o maior escorregamento pode ocorrer.

ANTI-SLIP

In areas at risk of slipping, the application of non-slip / anti-slip material greatly reduces the risk of slipping.
Some (of the) indicators used in the measurement of coefficient of friction are:
DIN 51130 - the angle of inclination achieved/reached during the slip resistance test. This standard determines the properties of non-slip/anti-slip flooring used in places where one walks with shod feet.
DIN 51097 - standard that is used for wetland areas with the possibility of one walking barefoot (pool areas, changing rooms, etc.)
BS 7976 - the test is done horizontally because it was designed to replicate a pedestrian heel strike, the point at which most slips occur.

ANTIDÉRAPANT

Dans des zones présentant un risque de glissement, l'application de matériau antidérapant réduit considérablement ce risque.
Certains des indicateurs utilisés pour la mesure du coefficient de frottement sont:
DIN 51130 – l'angle d' inclinaison atteint pendant le test de résistance au glissement
Cette norme détermine les propriétés antidérapantes des revêtements de sols utilisés dans des lieux de circulation avec les pieds chaussés.
DIN 51097 - norme qui est utilisée pour les zones humides où il est possible de circuler pieds nus (zones de piscine, vestiaires, etc.)
BS 7976 - ce test est fait à l'horizontale puisqu'il a été conçu pour répliquer le contact du pied avec le sol jusqu'au point où le plus de glissance peut survenir.

RUTSCHSICHERE FLIESEN

In Räumen und Bereichen mit Rutschgefahr ist der Einsatz von rutschsicheren Fliesen ratsam, da diese das Rutschrisiko beträchtlich hemmen.
Bei der Prüfung der rutschhemmenden Eigenschaft gelten die folgenden Begriffe:
DIN 51130 - akzeptanzwinkel, d.h. Neigungswinkel der schiefen Ebene, bei dem die Prüfung bestanden wird. Die Norm bestimmt die rutschhemmende Eigenschaft von Bodenbelägen in Bereichen, in denen man Schuhe trägt.
DIN 51097 - norm für nassbelastete Barfußbereiche (Schwimmbad, Umkleideräume, etc)
BS 7976 - er wird in der Waagerechten durchgeführt, weil er den Fußkontakt eines Fußgängers an dem Punkt mit der höchsten Rutschgefahr simulieren soll.

ПРЕДОХРАНЕНИЕ ОТ СКОЛЬЖЕНИЯ

В местах с риском скольжения использование материала против скольжения значительно уменьшает риск скольжения.
При измерении коэффициента трения используют также следующие показатели:
DIN 51130 – максимальный угол наклона, достигнутый при тесте на сопротивление скольжению. Этот стандарт определяет свойства сопротивления скольжению покрытий, используемых на площадях, где происходит передвижение в обуви.
DIN 51097 - Стандарты, применяемые для влажных поверхностей, где возможно передвижение босиком (бассейны, санузлы, итд.)
BS 7976 - Данное испытание имитирует движения скользящей ноги. Оно основано на скольжении маятника по поверхности пола и измеряет коэффициент трения.

ANTISCIVOLO

Nelle zone a rischio di scivolamento, l'applicazione di materiale antisdrucciolo riduce notevolmente il rischio di scivolamento.
Alcuni degli indicatori utilizzati per misurare il coefficiente di attrito sono:
DIN 51130 - l'angolo d'inclinazione raggiunto durante la prova di resistenza allo scivolamento. Questa norma determina le caratteristiche antiscivolo dei rivestimenti per pavimento destinati ad essere calpestati a piedi calzati.
DIN 51097 – norma applicabile a zone bagnate dove il transito si effettua a piedi nudi (zone di piscine, spogliatoi, ecc.)
BS 7976 - il test è fatto orizzontalmente dato che è stato concepito per replicare il contatto del piede con il suolo fino al punto in cui può verificarsi lo scivolamento maggiore.

LOVE CERAMIC TILES

UTILIZAÇÕES PRETENDIDAS

INTENDED USES | DOMAINES D'EMPLOI | VERWENDUNGSZWECKE
ПРЕДПОЛАГАЕМОЕ ИСПОЛЬЗОВАНИЕ | USI PREVISTI

As características técnicas bem como a facilidade de instalação, com ou sem colas (instalação a seco em relva, gravilha ou pavimentos sobrelevados), fazem das placas cerâmicas Love Tiles 20MM a melhor solução para a pavimentação de espaços exteriores sejam eles públicos ou privados, tais como jardins, garagens, caminhos pedonais, terraços, piscinas, áreas urbanas, etc.
Trata-se igualmente de uma boa solução para combinar espaços interiores e exteriores.

The characteristics of the product and the ease of installation, both with or without adhesive (dry installation on grass, gravel, or elevated floors), make the 20MM thick porcelain tile by Love Tiles the best solution for external flooring of public and residential areas, such as urban spaces, pavements, garden paths, car parks, terraces, swimming pool edges, bathing facilities, parks and much more.
The best solution to match external and internal spaces.

Les caractéristiques du produit ainsi que l'extrême facilité de pose aussi bien à sec (sur herbe, gravier, sols surélevés) qu'avec adhésif, font du grès cérame Love Tiles épaisseur 20MM, la meilleure solution pour les pavages externes de zones publiques et résidentielles: places urbaines, trottoirs, voies piétonnes, parkings, terrasses, bords de piscine, établissements balnéaires, aménagement public paysager et bien d'autres domaines encore.
Une solution optimale pour obtenir un ensemble parfaitement coordonné entre intérieur et extérieur.

Die Produkteigenschaften und extreme Einfachheit sowohl der Trockenverlegung (auf Gras, Kies, als Doppelboden) als auch der Kleberverlegung, machen das Feinsteinzeug von Love Tiles mit 20MM Stärke zur besten Lösung bei Bodenbelägen im Außenbereich von öffentlichen und privaten Anlagen: Stadtplätze, Bürgersteige, Wege, Parkplätze, Terrassen, Poolumrandungen, Badeanlagen, öffentliche Grünanlagen und vieles mehr.
Die beste Lösung um eine optimale Koordination zwischen Innen- und Außenbereich zu erhalten.

Технические характеристики и простота укладки, с или без использованя клея (сухая укладка поверх травы, поверх гравия или фальшпола), делают керамогранит 20 мм от Love Tiles отличным решением для мощения различных пространств, садов, гаражей, пешеходных дорожек, террас, плавательных бассейнов, городских районов и т.д.
Также является хорошим решением для комбинирования пространств внутренних и наружных.

Le caratteristiche tecniche e la facilità di posa, sia a secco (su erba, ghiaia, in pavimenti sopraelevati) che a colla, rendono le piastrelle in ceramica 20MM Love Tiles la migliore soluzione per la pavimentazione di spazi esterni, siano essi pubblici o privati, come giardini, garage, passaggi pedonali, terrazze, piscine, aree urbane, ecc.
È anche una buona soluzione per ottenere un ottimo coordinabilità tra interno ed esterno.

APLICAÇÕES: SOLUÇÕES DE APLICAÇÕES

As instruções de aplicação aqui propostas são apenas uma indicação e têm como propósito ilustrar a execução de uma pavimentação correta.
Recomenda-se a consulta das normas e legislação aplicáveis em cada país, assim como as instruções da equipa de arquitectura / engenharia.

The application layers proposed hereunder are to be taken as an indication, and have the sole purpose of explaining how to obtain a correct flooring.
It is recommended to always refer to the specific norms and regulations in each individual country and the instructions of the design team.

Les stratigraphies proposées ci-dessous doivent être considérées comme indicatives et ont le seul but d'illustrer la typologie d'application pour l'obtention d'un sol effectué selon les règles de l'art.
On recommande de toujours vous référer aux réglementations spécifiques en vigueur dans votre pays et aux indications de la Direction des Travaux.

Die nachfolgend vorgeschlagenen Stratigraphien sind als indikativ zu betrachten und haben lediglich den Zweck, die Anwendungstypologie für den Erhalt eines fachgerecht ausgeführten Bodenbelags aufzuzeigen.
Es wird empfohlen, sich immer auf die spezifischen in jedem einzelnen Land gültigen Bestimmungen und auf die Anweisungen der Bauleitung zu beziehen.

Инструкция по укладке предложенная здесь является лишь иллюстрацией и примером осуществления правильного настила напольной плитки.
Всегда рекомендуется проконсультироваться с правилами и законами в каждой стране, а также с инструкциями арихитектора/дизайнера.

Le istruzioni di posa qui di seguito proposte sono da ritenersi indicative e hanno l'unico scopo di illustrare la tipologia di applicazione per l'ottenimento di una pavimentazione eseguita a regola d'arte.
Si consiglia di fare sempre riferimento alle specifiche normative vigenti in ogni singolo paese e alle indicazioni del team di architettura / ingegneria.

APLICAÇÃO A SECO SOBRE RELVA

DRY INSTALLATION ON GRASS | POSE EN APPUI SUR HERBE | TROCKENVERLEGUNG AUF GRAS
СУХАЯ УКЛАДКА ТОЛСТОГО КЕРАМОГРАНИТА НА ТРАВУ | POSA A SECCO SUR ERBA

EXECUÇÃO DE UM CAMINHO PEDONAL

Na criação de um caminho pedonal é importante, antes de iniciar, determinar o número de peças necessárias, assegurando que as mesmas são posicionadas de forma equidistante. Para a obtenção de uma estabilidade máxima recomenda-se aprofundar o solo em cerca de 5cm, sendo posteriormente preenchido com gravilha (grão entre 4 a 8mm). Compactar o solo e colocar a placa cerâmica.
É recomendável alinhar as placas cerâmicas com a relva de modo a não danificar os cortadores de relva.

MATERIAIS PARA APLICAÇÃO SOBRE RELVA

Pá, gravilha (com grão de 4-8mm), pá de pedreiro com topo quadrado, martelo de borracha, luvas e pinça de elevação.

LAYING STEPPING STONES

To create a pathway with stepping stones it is important, first of all, to determine the number of steps necessary, making sure that the tiles are positioned equidistantly. So as to obtain maximum stability, it is recommended to dig out about 5cm from the soil, and then place a fine layer of gravel. Compact the substrate and then position the tile.
It is better to lay the surface of the tiles in line with the turf to avoid damaging lawn mowers.

NECESSARY MATERIALS FOR LAYING ON GRASS

Shovel, fine gravel (grain size 4-8 mm), trowel with square tip, rubber mallet, work gloves and lifting tong.

COMMENT POSER LES “PAS JAPONAIS”

Pour la réalisation d’un sol dans le style des “pas japonais”, il faut, avant tout, définir le nombre de pas nécessaires au cheminement, en faisant en sorte que les dalles soient positionnées à la même distance l’une de l’autre. Pour obtenir une excellente stabilité, il est conseillé d’effectuer une tranchée de 5 cm dans le terrain, de poser une fine couche de gravier fin, de compacter le fond puis de positionner la dalle.
Il convient d’effectuer la pose de façon à ce que la pelouse se trouve au même niveau que le dallage, on évitera ainsi d’endommager la tondeuse, au moment de son passage.

NÉCESSAIRE POUR LA POSE SUR HERBE

Bêche, gravier fin (granulométrie 4-8 mm), truelle à pointe dentée, marteau de caoutchouc, gants de travail et pince de levée.

WIE MAN «TRITTSTEINE» VERLEGT

Für die Realisierung eines Bodenbelags im Stil «Trittsteine» muss man vor allem die Anzahl der für den Weg notwendigen Trittsteine definieren, so dass die Platten in einem gleichmäßigen Abstand verlegt werden. Für den Erhalt einer optimalen Stabilität wird empfohlen circa 5 cm Erde auszuheben, eine' dünne Schicht feinen Kies zu verteilen, den Untergrund zu verdichten und schließlich die Platte zu positionieren.
Es ist empfehlenswert die Platten so zu verlegen, dass der Grasmantel mit dem Bodenbelag auf einer Höhe liegt, so dass der Rasenmäher während des Schneidens die Platten nicht beschädigt.

ERFORDERLICHES MATERIAL FÜR DIE VERLEGUNG AUF GRAS

Spaten, feinen Kies (Körnung 4-8 mm), Polierschaufel mit geradem Blatt, Gummihammer, Arbeitshandschuhe und Greifzange.

ИСПОЛЬЗОВАНИЕ В КАЧЕСТВЕ ПЕШЕХОДНЫХ ДОРОЖЕК

Создание пешеходных дорожек имеет важное значение, прежде чем начать укладку, определите количество необходимых плиток, постарайтесь, чтобы они были расположены на одинаковом расстоянии друг от друга. Для получения максимальной стабильности рекомендуется срезать грунт вместе с дерном глубиной 5 см в пределах размеров плитки. В образовавшееся углубление выложите гравий ровным слоем. Далее уложите плитку на гравий. Проследите за тем, чтобы поверхность плитки была на 1 см. ниже окружающей ее травы, это позволит избежать повреждения газонокосилки в будущем.

НЕОБХОДИМЫЕ МАТЕРИАЛЫ ДЛЯ УКЛАДКИ НА ТРАВУ

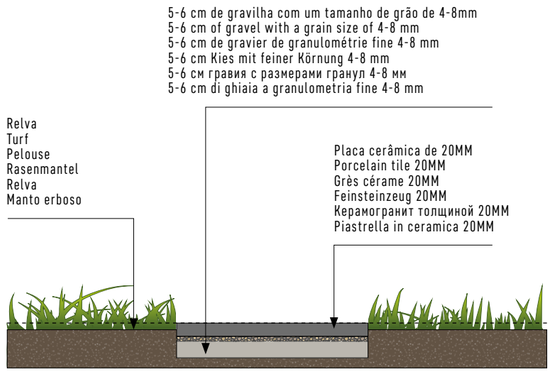

Лопата, гравий (щебень с размерами гранул 4-8 мм), резиновый молоток, перчатки и клещевой грузозахват.

POSA IN OPERA DI UN PASSAGGIO PEDONALE

Per la realizzazione di un percorso pedone, occorre innanzitutto definire il numero di piastrelle necessarie, facendo in modo che siano posizionate a distanza uguale l’una dall’altra. Per ottenere la massima stabilità, si consiglia di realizzare uno scavo di circa 5 cm nel terreno e riempirlo con uno strato di ghiaia fine (granulometria 4/8 mm). Compattare il terreno e quindi posizionare la piastrella in ceramica.
Si consiglia di eseguire la posa facendo in modo che il manto erboso sia alla stessa quota della pavimentazione per non danneggiare il tosaerba.

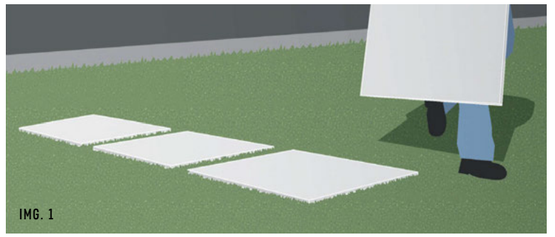

MATERIALI PER LA POSA SU ERBA

Vanga, ghiaia fine (granulometria 4/8 mm), cazzuola a punta quadrata, martello di gomma, guanti e pinza di sollevamento.

Posicionar as placas cerâmicas de 20MM para determinar a sua localização correcta. Assegurar que estão equidistantes.
Position the 20MM tiles on the ground to determine their correct positioning, making sure that they are equidistant.
Positionner les carreaux 20MM à terre afin de définir leur bon positionnement au sol et en ayant soin de les garder à la même distance entre eux.
Die 20MM starken Platten auf dem Boden ablegen, um die korrekte Positionierung des Bodenbelags festzulegen. Dabei auf den gleichmäßigen Abstand der Platten untereinander achten.
При укладке керамогранита 20ММ, постарайтесь определить их правильное расположение. Убедитесь, чтобы они были расположены на одинаковом расстоянии друг от друга.
Posizionare a terra le piastrelle in ceramica 20мм per stabilire la loro corretta posizione, avendo l’accortezza di mantenerle equidistanti tra loro.

IMG. 2

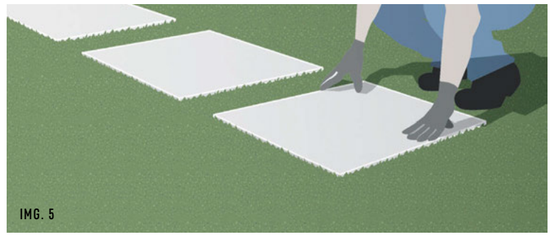

Marque o perímetro das placas cerâmicas de 20MM usando uma espátula.
Mark the perimeter of the 20MM tile using a spade in the soil.
À l’aide d’une bêche, délimiter le périmètre du carreau 20MM.
Den Umfang der 20MM starken Platte mit Hilfe eines Spatens abgrenzen.
Отметить периметр размеров плитки 20мм с помощью шпателя.
Delimitare il perimetro delle piastrelle in ceramica 20MM con una vanga.

IMG. 3

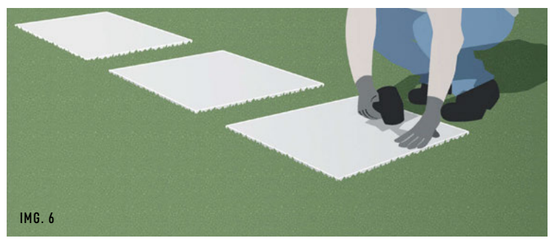

Remova a relva e aprofunde o solo em 5 cm.
Remove the turf and dig out about 5 cm of soil.
Éliminer la pelouse jusqu’à une profondeur d’environ 5 cm.
Den Rasenmantel bis zu einer Tiefe von circa 5 cm ausheben.
Срежте траву и выкопайте углубление на 5 см в пределах размеров плитки
Rimuovere il manto erboso fino ad una profondità di circa 5 cm..

IMG. 4

Forme um substracto uniforme utilizando a gravilha (grão entre 4 a 8mm).
Form a stable and uniform substrate using fine gravel (grain size 4/8 mm).
Réaliser un support stable et uniforme à l’aide du gravier fin (granulométrie 4/8 mm).
Einen stabilen und gleichmäßigen Untergrund mit Hilfe von feinem Kies (Körnung 4/8 mm) realisieren.
Создайте единое основание с помощью гравия (размер гранул от 4 до 8 мм).
Realizzare un sottofondo uniforme utilizzando la ghiaia fine (granulometria 4/8 mm).

IMG. 5

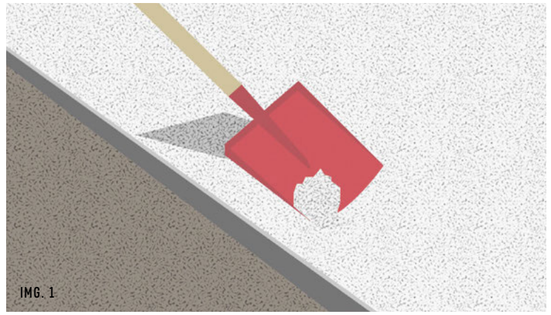

Aplique as placas cerâmicas de 20MM de modo a deixar cerca de 0,5cm de desnível entre a placa e o solo circundante.
Lay the 20MM tile, so as to have an approximately 0.5 cm level difference, between the tile and the ground.
Poser le carreau 20MM de façon à obtenir un dénivelé d’environ 0,5 cm entre le carreau et le terrain.
Die 20MM starke Platte so verlegen, dass ein Höhenunterschied von circa 0,5 cm zwischen Platte und Erdboden besteht.
Уложите керамогранит 20мм, так чтобы оставить около 0,5 см зазора между плитой и грунтом.
Posare le piastrelle in ceramica 20MM in modo da ottenere un dislivello di circa 0,5 cm tra la piastrella e il terreno circostante.

IMG. 6

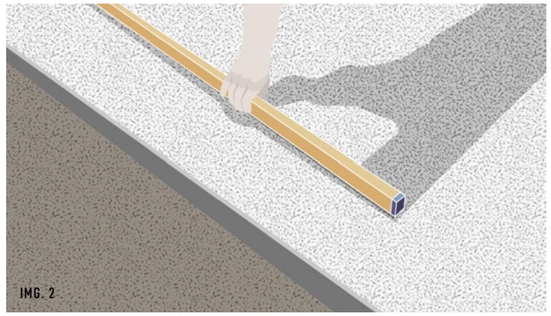

Usando o martelo de borracha posicione a placa cerâmica até esta estar ao mesmo nível da relva.
Using a rubber mallet hammer the edges until the 20MM tile is at the same level as the grass.
À l’aide d’un marteau de caoutchouc, compacter les bords de façon à porter le carreau 20MM au même niveau que la pelouse.
Mit einem Gummihammer die Ränder so verdichten, dass die 20MM starke Platte mit dem Rasenmantel auf derselben Höhe ist.
Используя резиновый молоток, поместите керамогранитную плиту, на один уровень по высоте с травой.
Con un martello di gomma compattare i bordi fino a portare la piastrella in ceramica 20MM alla stessa quota del manto erboso.

APLICAÇÃO SOBRE GRAVILHA

DRY INSTALLATION ON GRAVEL | POSE EN APPUI SUR GRAVIER
TROCKENVERLEGUNG AUF KIES | СУХАЯ УКЛАДКА НА ГРАВИЙ | POSA SU GHIAIA

IMG. 1

Forme um substrato estável e uniforme com a gravilha de 4-8mm.
Form a stable and uniform substrate using fine gravel (grain size 4/8 mm).
Réaliser un support stable et uniforme à l'aide du gravier fin (granulométrie 4/8 mm).
Einen stabilen und gleichmäßigen Untergrund mit Hilfe von feinem Kies (Körnung 4/8 mm) realisieren.
Создайте единое основание с помощью гравия (размер гранул от 4 до 8 мм).
Realizzare un sottofondo stabile e uniforme utilizzando ghiaia fine (granulometria 4/8 mm).

IMG. 2

Nivele o substracto usando uma régua metálica.
Level the substrate with a metal straightedge.
Niveler le support à l'aide d'une règle métallique.
Den Untergrund mit Hilfe einer Metall-Latte nivellieren.
Для выравнивания уровня используйте металлическую линейку
Livellare il sottofondo con una staggia metallica.

IMG. 3

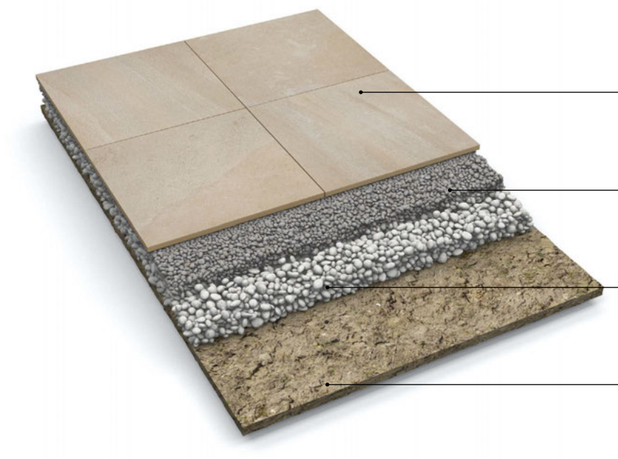

Posicione a placa cerâmica e compacte os bordos de modo a nivelá-los com o substracto. Sugerimos uma junta de 4mm para garantir um bom escoamento de água.
Position the tile and then compact the edges in order to equalize the tile with the substrate. It is suggested to use a joint of 4 mm to allow good water drainage.
Positionner le carreau puis compacter les bords afin d'uniformiser le carreau avec le support. Nous suggérons une ligne de séparation de 4 mm qui permettra un bon drainage de l'eau.
Die Platte positionieren und die Ränder schließlich verdichten, um die Platte mit dem Untergrund abzugleichen. Es wird empfohlen, eine Fuge von 4 mm beizubehalten, um eine gute Dränage des Wassers zu erlauben.
Поместите керамогранит, чтобы уравнять плитку с основанием из гравия. Мы советуем использовать швы толщиной 4мм, чтобы обеспечить хороший дренаж.
Posizionare la piastrella e quindi compattare i bordi per uniformare la piastrella con il sottofondo. Si consiglia una fuga di 4 mm per consentire un buon drenaggio dell'acqua.

Antes de proceder à instalação limpe cuidadosamente o suporte.

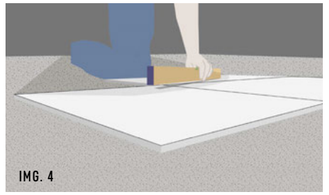

Before proceeding with the installation clean the substrate thoroughly.

Avant de procéder à la pose, il convient d'effectuer un bon nettoyage du support.

Vor dem Verlegen muss der Untergrund sorgfältig gereinigt werden.

Перед тем как приступить к укладке очистите тщательно поверхность.

Prima di procedere con la posa occorre realizzare una corretta pulizia del sottofondo.

IMG. 4

Verifique a planaridade do suporte durante a instalação.

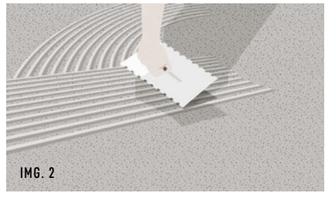

Check the planarity of the flooring during the laying operations.

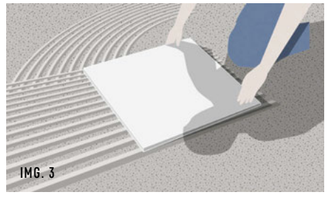

Vérifier la planéité du sol durant les opérations de pose.

Während der Verlegungsarbeiten die Planarität des Bodenbelags überprüfen.

Проверьте планитарность поверхности до и во время укладки плитки.

Verificare la planarità della pavimentazione durante le operazioni di posa.

IMG. 2

IMG. 3

Para um resultado plano é importante aplicar uma camada homogénea de cola.

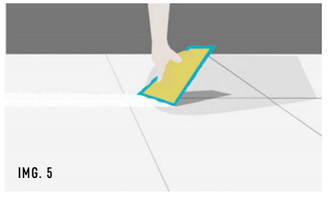

For a planar end result, it is important to apply a homogeneous layer of adhesive.

Pour obtenir un sol en plan, nous insistons sur l'importance de bien étaler la colle de façon homogène.

Für den Erhalt eines ebenmäßigen Bodenbelags ist eine gleichmäßige Verteilung des Klebers von unerlässlicher Bedeutung.

Для правильного конечного результата, важно наносить однородный слой клея.

Per ottenere una pavimentazione planare si evidenzia l'importanza di una stesura omogenea della colla

IMG. 5

Após a aplicação, rejunte o pavimento. Respeitar o tempo de secagem indicado pelo fornecedor de colas para tráfego ligeiro.

Once the installation is finished, grout the flooring. Remember to observe the times indicated by the manufacturer for light foot traffic before walking on the tiles.

Une fois la pose terminée, effectuer le jointoiement en veillant à respecter les délais autorisant le piétinement, indiqués par le producteur de l'adhésif employé.

Nach dem Verlegen den Bodenbelag verfugen und dabei die vom Kleberhersteller angegebenen Zeiten für die Begehbarkeit beachten.

После завершения укладки плитки, используйте затирку. Но, не забывайте выдержать необходимое время для высыхания плиточного клея, указанного поставщиком клея, прежде чем начать ходить по плитке.

Terminata la posa eseguire la stuccatura del pavimento avendo cura di rispettare le tempistiche di pedonabilità indicate dal fabbricante e dell'adesivo utilizzato.

IMG. 6

A limpeza pós obra ajuda a remover os resíduos de cimento e argamassas. É obrigatório para completar uma instalação de sucesso. Consultar a informação de limpeza.

"Post-laying" cleaning helps remove residues of grout-joints, cement and lime. It is mandatory at the end of the floor installation process. Refer to the information in the Love Tiles general catalogue.

Le nettoyage "après pose" sert à enlever les résidus de mortier, de ciment, de chaux et de ciment-joint présents sur les lignes de séparation. Il est obligatoire en fin de chantier. Se référer aux indications contenues dans le catalogue général Love Tiles.

Die Reinigung „nach dem Verlegen" dient zur Entfernung der Spachtel-, Zement-, Kalk-, und Einpressmörtelrückstände. Sie ist nach Beendigung der Verlegungsarbeiten Pflicht. Siehe Angaben im Hauptkatalog Love Tiles.

Чистка, после выполнения работ, важна для удаления остатков затирки, цемента и извести. Эта процедура является обязательной для успешного завершения укладки напольной плитки. За дополнительной информацией обратитесь в генеральный каталог Love Tiles.

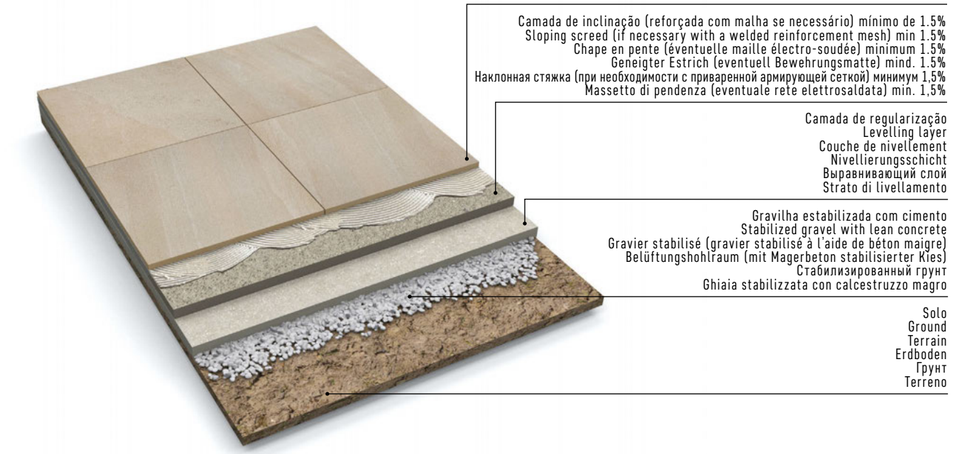

La pulizia "dopo posa" serve per rimuovere i residui di cemento e malte. È obbligatoria a fine cantiere. Fare riferimento a quanto riportato sul catalogo generale Love Tiles.

APLICAÇÃO SOBREELEVADA

ELEVATED FLOOR INSTALLATION | POSE SURÉLEVÉE
VERLEGUNG ALS DOPPELBODEN | УСТАНОВКА ФАЛЬШПОЛОВ | POSA SOPRAELEVATA

PAVIMENTOS SOBREELEVADOS (SUPERFÍCIE DURA) APLICAÇÃO EM SUPERFÍCIES PLANAS

As instruções de aplicação aqui propostas são apenas uma indicação e têm como propósito ilustrar a execução de uma pavimentação correta. Recomenda-se a consulta das normas e legislação aplicáveis em cada país, assim como as instruções da equipa de arquitetura / engenharia.
Para a obtenção de um bom escoamento, recomenda-se a prévia preparação dos declives aquando a execução do suporte base.
É importante referir que a placa cerâmica de 20MM Love Tiles tem uma absorção de água muito baixa e resistente ao gelo. Esta característica pode originar alguma acumulação de água junto dos bordos, mesmo que a instalação esteja absolutamente correcta. Recomenda-se a instalação com uma junta mínima de 3mm.

MATERIAIS NECESSÁRIOS PARA INSTALAÇÃO DE PAVIMENTOS SOBREELEVADOS
Pés ajustáveis, chave de afinação, espátula de nível e vassoura.

ELEVATED FLOORS (HARD BASE) LAYING ON FLAT SURFACES

The application layers proposed hereunder are to be taken as an indication, and have the sole purpose of explaining how to obtain a correct flooring. It is recommended to always refer to the specific norms and regulations in each individual country and the instructions of the design team.
So as to have optimal draining of the elevated floor it is better to prepare the necessary slopes during installation of the base.
It is important to note that Love Tiles porcelain tiles have extremely low water absorption rates and are therefore completely frost resistant. These characteristics may result in stagnation of water close to the edges of the tiles, even if the installation is done perfectly. We recommend installation with a minimum joint of 3 mm.

NECESSARY MATERIALS FOR ELEVATED FLOOR INSTALLATION
Adjustable support, adjustment key, lifting tongs, a spirit level, a broom and dustpan.

SURÉLEVÉ (PLANCHER) POSE SUR COUVERTURES PLANES

La stratigraphie proposée ci-dessous doit être considérée comme indicative et a le seul but d'illustrer la typologie d'application pour l'obtention d'un sol effectué selon les règles de l'art. Nous recommandons de toujours vous référer aux réglementations spécifiques en vigueur dans votre pays et aux indications de la Direction travaux.
Il faudra, au moment de l'installation, juger des bonnes inclinaisons qui permettront le parfait drainage du sol surélevé.
Nous soulignons que le grès cérame Love Tiles se caractérise par ses très faibles valeurs d'absorption en eau ce qui lui permet de résister totalement au gel. Ces caractéristiques peuvent comporter quelques stagnations d'eau en proximité des bords des carreaux, indépendamment du fait que la pose ait été réalisée selon les règles de l'art ou pas. On conseille une pose avec un joint minimum de 3 mm.

NÉCESSAIRE POUR LA POSE SURÉLEVÉE
Support réglable, clé de réglage, pince de levée, niveau à bulle, pelle et balai.

DOPPELBODEN (TRÄGERDECKE) VERLEGUNG AUF EBENEN ABDECKUNGEN

Die nachfolgend vorgeschlagene Stratigraphie ist als indikativ zu betrachten und hat lediglich den Zweck, die Anwendungstypologie für den Erhalt eines fachgerecht ausgeführten Bodenbelags aufzuzeigen. Es wird empfohlen, sich immer auf die spezifischen in jedem einzelnen Land gültigen Bestimmungen und auf die Anweisungen der Bauleitung zu beziehen.
Für den Erhalt einer optimalen Dränage des Doppelboden-Belags sollten geeignete Neigungen während der Installation vorgesehen werden.
Es wird betont, dass die Werte der Wasserabsorption beim Feinsteinzeug Love Tiles praktisch vernachlässigbar sind und die Fliesen demnach komplett frostbeständig sind.
Diese Eigenschaften können zu Wasseransammlungen in der Nähe der Fliesenränder führen, unabhängig davon ob die Verlegung fachgerecht ausgeführt wurde. Es wird empfohlen die Verlegung mit einer Mindestfuge von 3 mm auszuführen.

ERFORDERLICHES MATERIAL FÜR DIE VERLEGUNG VON DOPPELBÖDEN
Regulierbarer Träger, Einstellschlüssel, Greifzange, Wasserwaage, Besen und Schaufel.

ФАЛЬШПОЛЫ (С ТВЕРДЫМ ПОКРЫТИЕМ) ПРИМЕНЕНИЕ НА ПЛОСКИХ ПОВЕРХНОСТЯХ

Инструкция по укладке предложенная здесь является лишь иллюстрацией и примером осуществления правильного настила напольной плитки. Всегда рекомендуется проконсультироваться с правилами и законами в каждой стране, а также с инструкциями архитектора/дизайнера.
Для обеспечения хорошего дренажа, рекомендуется предварительная подготовка склонов во время выполнения укладки керамогранита. Следует отметить, что керамогранит 20MM от Love Tiles обладает очень низким водопоглощением и следовательно морозоустойчив. Эта характеристика может привести к накоплению воды вдоль краев плитки, даже если укладка была абсолютно правильной. Рекомендуемая толщина швов 3мм.

НЕОБХОДИМЫЕ МАТЕРИАЛЫ ДЛЯ УКЛАДКИ НАВЕСНЫХ ПОЛОВ (ФАЛЬШПОЛОВ)
Регулируемая опора, ключ регулировки, подъемные клещи, метла и совок.

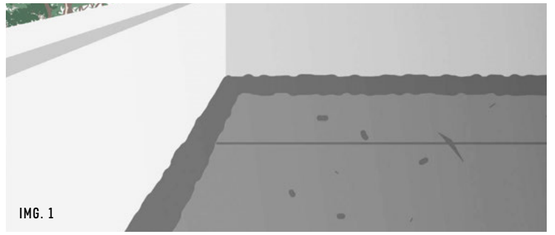

PAVIMENTI SOPRAELEVATI (SOLAIO) POSA SU COPERTURE PIANE

Le istruzioni di posa qui di seguito proposte sono da ritenersi indicative e hanno l'unico scopo di illustrare la tipologia di applicazione per l'ottenimento di una pavimentazione eseguita a regola d'arte.
Si consiglia di fare sempre riferimento alle specifiche normative vigenti in ogni singolo paese e alle indicazioni del team di architettura / ingegneria.
Per l'ottenimento di un ottimale drenaggio della pavimentazione sopraelevata è opportuno prevedere le idonee pendenze da realizzare durante la posa del solaio.
Si evidenzia che la piastrella in ceramica 20MM Love Tiles è caratterizzata da valori di assorbimento d'acqua praticamente trascurabili e quindi da totale ingelività. Queste caratteristiche possono comportare ristagni di acqua in prossimità dei bordi delle piastrelle, indipendentemente da una posa realizzata a regola d'arte.
Si consiglia la posa con una fuga minima di 3 mm.

MATERIALI OCCORRENTI PER LA POSA DI PAVIMENTI SOPRAELEVATI
Supporto regolabile, chiave di regolazione, pinza di sollevamento, livella con bolla, scopa e paletta.

CERAMIC TILES

GROUND 20MM GREY AS
60 x 60

Antes de iniciar o assentamento do material cerâmico, deverá ter em consideração os seguintes aspetos:
- Verificar se o material cerâmico é indicado para utilizar no local selecionado de acordo com as suas especificações e características técnicas;
- Verificar se existe material suficiente para realizar a obra;
- Confirmar nas caixas se o produto é da mesma tonalidade, escolha e calibre.

O bom desempenho do material cerâmico depende fortemente das condições de aplicação pelo que é de extrema importância garantir os seguintes pressupostos:

Before (beginning the) laying (of) ceramic material, you should take the following aspects into account:
- Check if the ceramic material is suitable for (use at) the selected site, according to its specifications and technical characteristics;
- Check whether there is enough material to conclude the work;
- Check the boxes to see/confirm in the boxes if the product is in the same shade, choice and caliber.

The good performance of the ceramic material depends strongly on the conditions of application for which it is extremely important to ensure the following assumptions:

Avant de commencer la pose du matériau céramique, les aspects suivants devront être pris en considération:
- Vérifier si le matériau céramique est indiqué pour une utilisation dans le lieu choisi, conformément à ses spécifications et caractéristiques techniques;
- Vérifier s'il existe la quantité de matériau suffisante pour réaliser le chantier;
- Confirmer dans les boîtes si le produit est du même ton, de la même qualité, et du même calibre.

La bonne performance du matériau céramique dépend fortement des conditions d'application. Il est donc extrêmement important de garantir les conditions préalables suivantes:

Vor dem Beginn der Verlegearbeiten sollten Sie folgende Punkte berücksichtigen:
- Bitte überprüfen Sie, ob die gewählte Fliese laut ihrer Oberflächenbeschaffenheit und ihren technischen Eigenschaften geeignet für das Einsatzgebiet ist;
- Bitte prüfen Sie nach, ob die Menge der gewählten Fliese ausreicht, um das geplante Bauprojekt fertig zu stellen;
- Bitte prüfen Sie, ob die Fliesen aus verschiedenen Kartons dieselbe Beschaffenheit, (Ton, Wahl und Kaliber) haben.

- Die Leistungsfähigkeit der Fliese hängt stark davon ab, wie die Fliesen verlegt werden. Daher ist es sehr wichtig, die folgenden Punkte zu beachten:

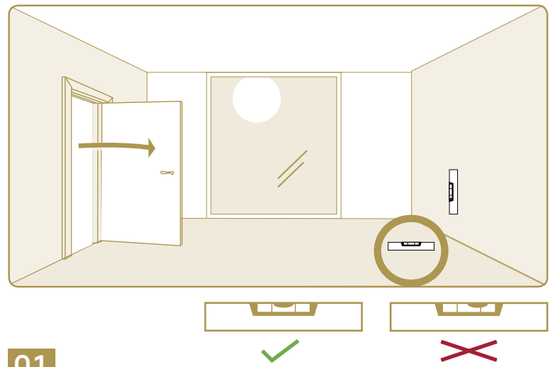

Перед началом работ по утсановке керамического материала необходимо учесть следующие моменты:
- Проверить, подходит ли керамический материал для использования в назначенном месте согласно его свойствам и техническим характеристикам;
- Проверить, имеется ли материал в количестве, достаточном для производства работ;
- Проверить по упаковкам, является ли продукция того же оттенка, ассортимента и размера.

Хорошие эксплуатационные показатели использования керамического материала сильно зависят от условий кладки, поэтому исключительно важно обеспечить следующие предпосылки:

Prima di iniziare la posa del materiale ceramico, occorre tener conto dei seguenti aspetti:
- Controllare che il materiale ceramico sia idoneo per l'uso nella posizione selezionata secondo le sue specifiche e caratteristiche tecniche;
- Verificare se c'è abbastanza materiale per eseguire il lavoro;
- Confermare sulle scatole se il prodotto è della stessa tonalità, selezione e calibro.

Le buone prestazioni del materiale ceramico dipendono in gran parte dalle condizioni di posa ed è quindi estremamente importante garantire i seguenti presupposti:

LOVE
CERAMIC TILES

01

O SUPORTE
O suporte deve apresentar-se estável, limpo de resíduos, fendas e poeiras. Deverão ser respeitados os tempos de cura e estabilidade dos tratamentos a que possa ter sido sujeito.
Deve fazer-se a verificação da planaridade do mesmo, procedendo à regularização, se necessário com a ajuda de produtos adequados a esse fim.
Estes aspetos são vitais para pavimentos e revestimentos cerâmicos.

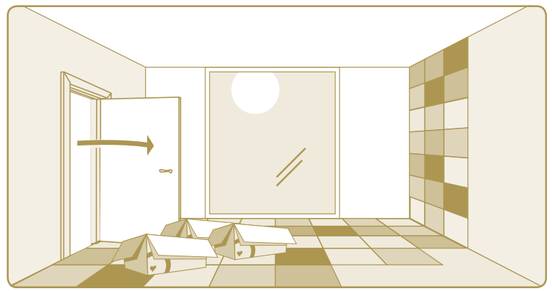

SUPPORT
The support must be stable, free of debris, dust and cracks. Curing times and stability of the treatments to which the support may have been subjected should be respected.
You should check its flatness and stabilize it, if necessary with the help of products suitable for the purpose.
These aspects are vital for wall and floor ceramic tiles.

LE SUPPORT
Le support doit être stable, exempt de résidus, fentes et poussières. Les temps de durcissement et de stabilité des traitements auxquels il doit être soumis devront être respectés.
La planéité du support doit être vérifiée et le nivellement doit être réalisé si cela est nécessaire, à l'aide de produits appropriés.
Ces aspects sont essentiels pour les revêtements de sol et muraux céramiques.

DER UNTERGRUND
Der Untergrund muss stabil, sauber, sowie frei von Rissen und Staub sein. Sollte der Untergrund vor dem Verlegen der Fliesen speziell behandelt werden müssen, so sollten Sie darauf achten, dass die Behandlung gut gelungen und abgeschlossen ist, bevor Sie die Fliesen verlegen.
Sie sollten den Untergrund inspizieren. Falls er nicht eben ist, muss er mit Hilfe von passenden Produkten grundiert werden.
Diese Vorsicht ist angebracht und eine unabdingbare Voraussetzung für das fachgerechte Verlegen von Boden- und Wandfliesen.

ОПОРНАЯ ОСНОВА
Опорная основа должна быть устойчивой, очищенной от отходов, трещин и пыли. Должны соблюдаться сроки полного высыхания и устойчивости процессов обработки, которым она может быть подвержена покрытия.
Следует произвести проверку на плоскостность и, если нужно, отрегулировать ее с использованием предназначенныхдля этого материалы.
Эти аспекты являются жизненно важными при установке керамических напольных покрытий и облицовке.

SUPPORTO
Il supporto deve essere stabile, privo di sporcizia, polvere e crepe. Le tempistiche di presa e di stabilità dei trattamenti a cui potrebbe essere stato sottoposto devono essere rispettate.
Occorre controllare la sua planarità, livellandolo, se necessario, con l'aiuto di prodotti idonei a tale scopo.
Questi aspetti sono fondamentali per pavimenti e rivestimenti in ceramica.

02

O MATERIAL
Para obter um melhor efeito visual do produto, aconselha-se a utilização, alternada, de peças cerâmicas retiradas de várias embalagens em simultâneo.
Caso o produto seja destonalizado ou tenha gráfica e tonalidade diferente, deverá ser aplicado de forma aleatória.

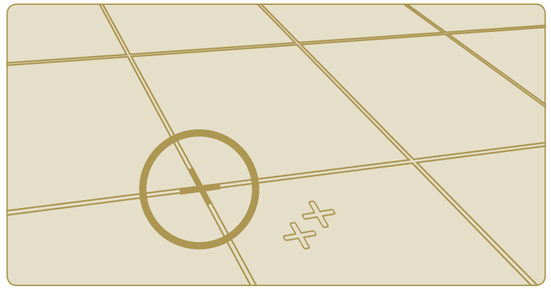

MATERIAL
For a better visual effect of the product, it is advisable to use alternating ceramic pieces taken from various packages simultaneously.
If the product has shade variations or has different graphics and shades, it should be applied randomly.

LE MATÉRIAU
Pour obtenir un meilleur effet visuel avec le produit, il est conseillé d'utiliser de forme alternée des pièces céramiques retirées simultanément de plusieurs emballages.
Si le produit est dénuancé ou a un aspect graphique différent et une tonalité différente, il devra être appliqué de forme aléatoire.

DAS MATERIAL
Damit Sie das beste Ergebnis erzielen, ist es ratsam, die Fliesen immer aus verschiedenen Paketen zu wählen und in regelmäßig abwechselnder Folge zu verlegen.
Falls das Produkt diverse Farbschattierung, einen unterschiedliche Farbton oder grafisches Design aufweist, müssen die Fliesen auf diese Weise verlegt werden.

МАТЕРИАЛ
Для получения лучшего визуального эффекта советуем использовать попеременно керамические образцы, беря их из разных коробок одновременно.
Если продукция без оттенков или с различающимися графическими изображениями и тональностью, установка должна осуществляться в произвольном порядке.

MATERIALE
Per ottenere un migliore effetto visivo del prodotto, si consiglia di utilizzare, in modo alternato, pezzi in ceramica prelevati contemporaneamente da diverse scatole.
Se il prodotto è stonalizzato o ha una grafica e tonalità diversa, deve essere applicato in modo casuale.

03

≥ 2mm ≥ 2mm 3-5mm

JUNTAS DE ASSENTAMENTO
Tendo em vista uma perfeita aplicação das peças cerâmicas, deve usar-se obrigatoriamente juntas de assentamento. Estas cumprem importantes funções estéticas e técnicas, facilitando o alinhamento dos materiais, absorvendo eventuais deformações que se possam fazer sentir na estrutura – chão e parede – e impedindo, assim, a transmissão destas deformações às peças cerâmicas.
Utilizar as juntas mínimas recomendadas de forma a garantir um bom aspeto estético das peças cerâmicas, bem como respeitar as normas de aplicação:
NÃO RETIFICADOS - junta mínima de 2 mm
RETIFICADO - junta mínima de 2 mm
PRODUTOS RÚSTICOS - 3 – 5 mm
NOTA: independentemente dos valores aqui apresentados, o aplicador deverá sempre seguir as normativas dos países onde está a fazer este trabalho de aplicação.

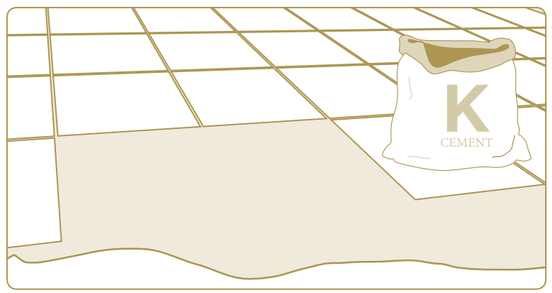

JOINTS FOR TILE-LAYING
For a perfect application of the ceramic pieces, you should definitely use joints. They fulfill important aesthetic and technical functions, facilitating alignment of the materials, absorbing any possible deformation liable to be felt in the structure - floor and wall - thus preventing the transmission of deformations to the ceramic pieces.
Use the minimum recommended joints so as to ensure a good aesthetic aspect of the ceramic pieces, and respect the rules of application as follows:
NON RECTIFIED - minimum joint of 2mm
RECTIFIED - minimum joint of 2mm
RUSTIC PRODUCTS - 3-5mm
NOTE: Regardless of the values presented here, the person applying it should always follow the regulations of the countries where he is doing this application work.

JOINTS DE POSE
L'utilisation de joints de pose est obligatoire afin d'obtenir une pose parfaite des pièces céramiques,. Ils remplissent une importante fonction esthétique et technique. Ils facilitent l'alignement des matériaux et absorbent d'éventuelles déformations qui peuvent se produire dans la structure – sols et murs – et empêchent donc la transmission de ces déformations aux pièces céramiques.
Utiliser Les joints minimaux recommandés afin de garantir un bon aspect esthétique des pièces céramiques et respecter les normes d'application sont les suivants:
NON RECTIFIÉS - joint minimal de 2 mm
RECTIFIÉ - joint minimal de 2 mm
PRODUITS RUSTIQUES - 3 – 5 mm
REMARQUE: Indépendamment des valeurs ici présentées, l'applicateur devra toujours suivre les réglementations du pays où il réalise ce travail d'application.

DAS VERFUGEN
Um die keramischen Platten perfekt zu verlegen, sollten Sie die Wand oder den Boden ordnungsgemäß verfugen. Die Fugen haben wichtige ästhetische und technische Funktionen. Sie erleichtern das Aufreihen der Fliesen; sie absorbieren eventuelle Verformungen der Wand oder des Bodens, und vermeiden dadurch die Übertragung dieser Verformungen auf die Fliesen. Die empfohlenen Fugenbreiten, welche eine schöne Optik sowie eine regelgerechte Verlegung gewährleisten, sind nachfolgend angegeben:
NICHT REKTIFIZIERT – mindestens 2 mm
REKTIFIZIERT – mindestens 2 mm
RUSTISCHE FLIESEN – 3 – 5 mm
WICHTIG: Abgesehen von den oben angegebenen Fugenbreiten, muss der Fliesenleger immer den jeweils geltenden landesspezifischen Vorschriften Folge leisten.

ПРОКЛАДКИ
Для получения безукоризненного результата при установе керамических деталей следует обязательно использовать прокладки. Они играют важную эстетическую и техническую роль, облегчая выравнивание материала, вбирая в себя возможную деформацию, которая может чувствоваться в структуре (пола и стены), препятствуя, таким образом, передаче этой деформации керамическим деталям.
Использовать рекомендуемые минимальные прокладки, чтобы обеспечить отличный эстетический вид керамических деталей, а также соблюдать правила установки:
НЕРЕКТИФИЦИРОВАННАЯ – минимальная прокладка 2 мм
РЕКТИФИЦИРОВАННАЯ – минимальная прокладка 2 мм
ПРОДУКЦИЯ В ДЕРЕВЕНСКОМ СТИЛЕ – 3-5 мм
ПРИМЕЧАНИЕ: Независимо от приведённых здесь значений, специалист всегда должен соблюдать нормы той страны, в которой производит работы по укладке.

FUGHE
Per una perfetta posa delle piastrelle in ceramica, devono essere eseguite delle fughe. Queste svolgono importanti funzioni estetiche e tecniche, facilitando l'allineamento dei materiali, assorbendo eventuali deformazioni che potrebbero manifestarsi sulla struttura – pavimento e parete – e quindi prevenendo la trasmissione di queste deformazioni alle piastrelle in ceramica.
Utilizzare le fughe minime raccomandate per garantire un buon aspetto estetico delle piastrelle in ceramica e rispettare le modalità di posa:
NON RETTIFICATI – fuga minima di 2 mm
RETTIFICATI – fuga minima di 2 mm
PRODOTTI RUSTICI – 3 - 5 mm
NOTA: indipendentemente dai valori sopra riportati, il posatore deve fare sempre riferimento alle specifiche normative vigenti nel paese in cui sta eseguendo questo lavoro di posa.

04

COLA E ARGAMASSAS
As argamassas, argamassas de rejuntamento, cimentos-colas e colas a utilizar deverão ter em conta o suporte e o fim a que se destinam as peças cerâmicas - interior, exterior, parede, pavimento - e a sua tipologia - monoporosa ou grés esmaltado.
Deverá seguir as instruções indicadas pelo fabricante sobre a sua utilização.

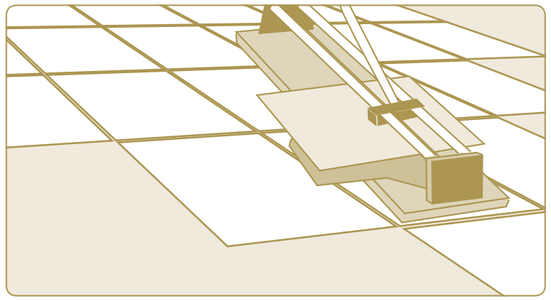

GLUE AND MORTAR
The mortars, grouting mortars, glue-cements, and glues to be used should take into account both the support and the intended purpose of the ceramic pieces - indoor, outdoor, wall, floor - and their typology – mono-porous / monoporosa or glazed stoneware.
You should follow the instructions provided by the manufacturer on its use.

COLLE ET MORTIERS
Les mortiers, mortiers de rejointoiement, ciments-colles et colles à utiliser devront tenir compte du support et de la fin à laquelle sont destinées les pièces céramiques - intérieur, extérieur, mur, plancher - ainsi que de leur typologie - monoporosa ou grès émaillé.
Vous devrez suivre les instructions indiquées par le fabricant pour son utilisation.

KLEBER UND MÖRTEL
Welchen Mörtel, welchen Zementkleber oder welche andere Verbundmittel Sie am besten verwenden, hängt sowohl vom Untergrund als auch vom Material (Monoporosa, glasierte Fliesen) ab. Es kommt ebenso darauf an, ob die Fliesen im Außen- oder Innenbereich, an der Wand oder am Boden verlegt werden.
Bitte befolgen Sie die Herstellerangaben zum Gebrauch des Produktes.

КЛЕИ И РАСТВОРЫ
При выборе растворов, тампонажных растворов, цементных клеев и других видов клея необходимо учитывать основу и назначение керамических деталей – наружное, внутреннее, стены, напольное покрытие – и его типологию – монопористый или эмалированный керамогранит.
Необходимо соблюдать инструкции по их применению, разработанные производителем.

COLLE E MALTE
Le malte, malte fuganti, cementi-colla e colle da utilizzare devono tener conto del supporto e della destinazione delle piastrelle in ceramica – interno, esterno, parete, pavimento – e della loro tipologia – monoporosa o gres porcellanato smaltato.
Seguire le istruzioni per l'uso fornite dal fabbricante.

05

CORTE
Para executar cortes nas peças cerâmicas poderá utilizar uma máquina de corte manual.
Para cortes mais difíceis poderá utilizar uma máquina de serra de corte com arrefecimento a água com potência superior 1 cv.
Também é possível a utilização de rebarbadora de corte a seco para pequenos cortes.

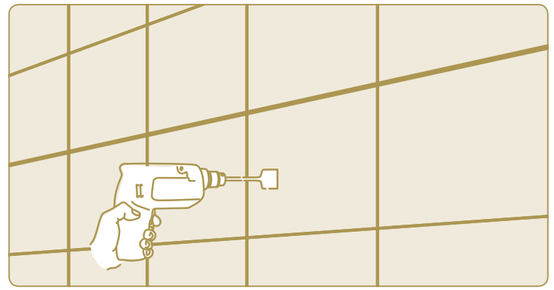

CUT
To make cuts in ceramic pieces you can use a manual cutting machine.
For tougher cuts you can use a cutting saw machine with water cooling with power above 1hp.
You can also use a dry grinder for making small cuts.

COUPE
Pour couper les pièces céramiques, vous pourrez utiliser une machine de coupe manuelle.
Pour des coupes plus difficiles, vous pourrez utiliser une machine de coupe refroidie à eau, d'une puissance supérieure à 1 cv.
Il est également possible d'utiliser une meuleuse (coupe à sec) pour les petites découpes.

FLIESEN SCHNEIDEN
Die keramischen Platten können mit Hilfe einer handlichen Fliesenschneidmaschine zugeschnitten werden.
Für aufwendige Schnitte können Sie einen Wasser-Fliesenschneider (> 1cv) verwenden.
Für kleine Schnitte empfehlen wir einen Winkelschleifer zu benutzen.

РЕЗКА
Чтобы производить резку керамических изделий, можно использовать инструмент для ручной резки.
Для более трудоёмкой резки можно применять механическую пилу с водяным охлаждением мощностью свыше 1 л.с.
Также при небольшой нарезке возможно применение шлифовальной машины для сухой резки.

TAGLIO
Per eseguire tagli sulle piastrelle in ceramica è possibile utilizzare una macchina da taglio ad azionamento manuale.
Per tagli più difficili è possibile utilizzare un tagliapiastrelle elettrica con raffreddamento ad acqua di potenza superiore a 1 cv.
È anche possibile utilizzare la smerigliatrice per taglio a secco per piccoli tagli.

06

FUROS
Na furação deverão ser utilizadas brocas cranianas diamantadas com diâmetro adaptável ao furo pretendido.

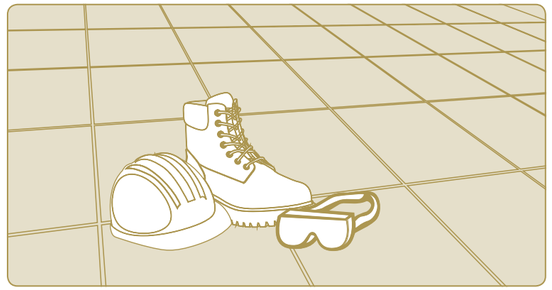

HOLES
For drilling you should use diamond twist drills with a diameter adaptable to the desired hole.

PERÇAGES
Pour le perçage, utiliser des trépans diamantés avec un diamètre adapté au trou désiré.

LÖCHER
Löcher sollten im gewünschten Durchmesser mittels einer Diamanthammerbohrkrone in die Fliese gebohrt werden.

ОТВЕРСТИЯ
При сверлении отверстий необходимо использовать алмазные свёрла диаметра, соответствующего предполагаемому отверстию.

FORI
Per realizzare fori circolari sulle piastrelle devono essere utilizzate delle frese a tazza diamantata con un diametro adattabile al foro stesso.

07

SEGURANÇA NA PREPARAÇÃO E ASSENTAMENTO DO MATERIAL
Aconselha-se a utilização de EPI (equipamento de proteção individual) adequado, nomeadamente, calçado de segurança, luvas de proteção e ainda óculos e proteção auditiva nas operações de corte do material.
Devem ser cumpridas as boas práticas a nível do levantamento e transporte manual de cargas.

SAFETY AND PREPARATION FOR LAYING THE MATERIAL
We advise the use of appropriate PPE (personal protective equipment), namely safety footwear, protective gloves and even goggles (safety glasses) and hearing protection in operations of cutting material.
Good practices must be followed in terms of lifting and carrying loads.

SÉCURITÉ LORS DE LA PRÉPARATION ET DE LA POSE DU MATÉRIAU
Il est conseillé d'utiliser un EPI (équipement de protection individuelle) approprié, notamment des chaussures de sécurité, des gants de protection, mais aussi des lunettes et une protection auditive lors des opérations de coupe du matériau.
Respectez les bonnes pratiques concernant le levage et le transport manuel de charges devront être appliquées.

SICHERHEITSHINWEISE FÜR DAS VERLEGEN VON FLIESEN
Wir empfehlen Ihnen, immer die passende Schutzkleidung zu tragen. Wir ermahnen Sie eindringlich, Schutzschuhe, -handschuhe, -brille sowie Gehörschutz zu benützen, wenn Sie die Fliesen zuschneiden.
Achten Sie bitte auf die richtige Körperhaltung, wenn Sie Lasten heben und tragen.

ОХРАНА ТРУДА ПРИ ПОДГОТОВКЕ И УКЛАДКЕ МАТЕРИАЛА
Рекомендуется использование подходящих СИЗ (средств индивидуальной защиты), а именно, безопасной обуви, защитных перчаток, а также очков и средств звуковой защиты при резке материала.
Необходимо соблюдать правила безопасности при ручном подъёме и транспортировке грузов.

SICUREZZA NELLA PREPARAZIONE E POSA DEL MATERIALE
Si consiglia l'uso dei DPI (dispositivi di protezione individuale) idonei, quali scarpe antinfortunistiche, guanti di protezione e occhiali, nonché protezione dell'udito nelle operazioni di taglio del materiale.
Devono anche essere rispettate le buone pratiche a livello di sollevamento e movimentazione manuale dei carichi.

08

PROTEÇÃO E LIMPEZA
Imediatamente após o assentamento do material cerâmico recomenda-se que as peças cerâmicas sejam devidamente protegidas. Para remoção de sujidade pós-obra, tais como resto de junta, cimentos, etc, recomenda-se a utilização de um ácido desincrustante tamponado para remoção de todos os resíduos.
Na manutenção diária poderão ser utilizados detergentes comuns, respeitando as diluições recomendadas pelo respetivo fabricante.
Relativamente às peças decoradas, dever-se-á evitar a utilização de produtos de limpeza abrasivos, poderão danificar as peças.
As peças decoradas através da deposição de partículas de titânio - Genesis, acabamento gold, silver e copper - que lhe conferem um aspeto metálico deverão ser manuseadas com cuidado. A limpeza final e de manutenção deste tipo de produto deverá ser feita com detergentes próprios para metais – abrilhantador de aço inox - de forma a criar um efeito antiestático que possa repelir a sujidade e proteger o produto de gorduras e corrosão.
A limpeza regular do produto deverá ser feita com um pano humedecido em água ou limpa-vidros, e após secagem deverá ser passado um pano seco.

PROTECTION AND CLEANING
Immediately after the laying of ceramic material it is recommended that the ceramic parts are / will be duly protected. For dirt removal after the work, such as left-over joints, cements, etc., it is recommended that you use a buffered descaling acid to remove all residues.
In daily maintenance, ordinary detergents may be used, respecting the dilutions recommended by the respective manufacturer.
Regarding decorated pieces, you should avoid the use of abrasive cleansers that may damage the pieces.
Pieces decorated through the depositing of titanium particles - Genesis: Gold, Silver. Copper - which give them a metallic aspect should be handled with care. The final cleaning and maintenance of this type of product should be made with detergents suitable for metals - stainless steel brightener - so as to create an antistatic effect that can repel dirt and protect the product from fats and corrosion.
Regular cleaning of the product should be done with a dump cloth moisturized with water or window cleaner, and after it gets dry, a dry cloth shall be used.

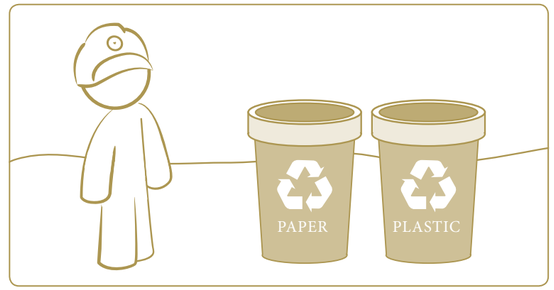

PROTECTION ET NETTOYAGE
Immédiatement après la pose du matériau céramique, il est recommandé de protéger correctement les pièces céramiques. Pour l'élimination de la saleté résultant des travaux, comme les résidus de joints, ciments, etc., il est recommandé d'utiliser un acide tamponné désincrustant.
L'entretien quotidien pourra être réalisé avec des détergents ordinaires, en respectant les dilutions recommandées par le fabricant respectif.
Pour les pièces décorées, l'utilisation de produits de nettoyage abrasifs devra être évitée car ils pourront endommager les pièces.
Les pièces décorées grâce au dépôt de particules de titane - Genesis: Gold, Silver. Copper - qui lui confèrent un aspect métallique, devront être manipulées avec soin. Le nettoyage final et d'entretien de ce type de produit devra être réalisé avec des détergents spécifiques pour les métaux – agent de brillantage d'acier inox - afin de créer un effet antistatique qui puisse repousser la saleté et protéger le produit des graisses et de la corrosion.
Le nettoyage régulier du produit doit être effectué avec un chiffon imbibé d'eau ou de nettoyant pour vitres et, après séchage, on doit passer un chiffon sec.

LOVE
CERAMIC TILES

SCHUTZ UND REINIGUNG
Bitte vergessen Sie nicht sofort nach Beendigung der Verlegearbeiten, die verflieste Fläche ordnungsgemäß zu schützen. Waschen Sie die verflieste Fläche mit Säure um etwaigen Schmutz (wie z.B.: Schlieren vom Fugenmaterial, Zement, etc.) zu beseitigen.
Für die alltägliche Pflege empfehlen wir die Verwendung von handelsüblichen Reinigungsmitteln. Beachten Sie bitte die Verdünnungsanweisung des Herstellers des Produktes.
Die Pflege und die Reinigung der keramischen Platten ist sehr einfach und sollte mit neutralen Putzmitteln durchgeführt werden.
Bitte befolgen Sie die Herstellerangaben zum Gebrauch des Produktes.
Schleifmittel können zur Beschädigung der Dekore führen und sind daher zu vermeiden.
Genesis - Gold, Silver und Copper Stücke die durch die Ablagerung von Titanpartikeln - die ihnen einen metallischen Aspekt geben, verziert sind, sollten mit Vorsicht behandelt werden. Die Endreinigung und Wartung dieses Produkttyps sollte mit für Metalle geeigneten Reinigungsmitteln - Aufheller aus rostfreiem Stahl - durchgeführt werden, um eine antistatische Wirkung zu erzielen, die Schmutz abweisen und das Produkt vor Fetten und Korrosion schützen kann.
Die regelmäßige Reinigung des Produkts sollte mit einem mit Wasser oder Glasreiniger angefeuchteten Tuch erfolgen. Nach dem Trocknen sollte man die Flächen mit einem trockenen Tuch abwischen.

ЗАЩИТА И ЧИСТКА
Непосредственно после укладки керамического материала рекомендуется принять меры по защите керамических изделий. После удаления загрязнений, возникших в ходе работы, таких как излишки прокладки, цементирования, и тд., рекомендуется использовать буферную кислоту для удаления всех остатков.
В повседневной чистке можно использовать обычные моющие средства, соблюдая нормы разбавления, указанные изготовителем.
В том, что касается декорированных деталей, следует избегать использование абразивных моющих средств, поскольку они могут повредить детали.
С деталями, декорированными путем осаждения титановых частиц, придающих им металлический вид, необходимо обращаться осторожно. Их окончательная и повседневная мойка должна производиться моющими средствами, специально предназначенными для металлов (полирующий состав для нержавеющей стали), чтобы создать антистатический эффект для отражения грязи и защиты продукции от жирных веществ и коррозии.
Регулярную очистку покрытия из керамогранита следует выполнять тряпкой, смоченной в воде или в чистящем средстве для стёкол, а после того, как поверхность высохнет - протереть сухой тряпочкой.

ROTEZIONE E PULIZIA
Subito dopo la posa del materiale ceramico è consigliabile che le piastrelle in ceramica siano adeguatamente protette. Per rimuovere lo sporco di fine cantiere, come resti di fughe, cementi, ecc, si consiglia di utilizzare un disincrostante acido tamponato per rimuovere tutti i residui.
Nella manutenzione quotidiana possono essere utilizzati dei normali detergenti, secondo le diluizioni raccomandate dal rispettivo fabbricante.
Per quanto riguarda i pezzi decorati, evitare l'uso di detergenti abrasivi, poiché possono danneggiare i pezzi.
I pezzi decorati mediante la deposizione di particelle di titanio - Genesis: Gold, Silver. Copper - che danno loro un aspetto metallico devono essere maneggiato con cura. La pulizia finale e manutenzione di questo tipo di prodotto devono essere eseguite con detergenti per metalli – brillantante per acciaio inox – al fine di creare un effetto statico in grado di respingere la sporcizia e proteggere il prodotto dai grassi e dalla corrosione.
La pulizia periodica del prodotto deve essere eseguita con un panno inumidito con acqua o detergente per vetri e, dopo l'asciugatura, passare un panno asciutto.

09

CICLO DE VIDA
Os impactes ambientais dos nossos produtos distribuem-se ao longo do seu ciclo de vida, nas etapas extração, transporte de matérias-primas, produção, distribuição, uso e fim de vida. A Love Tiles minimiza estes impactes ambientais, através de boas práticas de gestão ambiental. No uso e fim de vida, apelamos à vossa melhor gestão, privilegiando a reutilização ou a reciclagem numa perspetiva de economia circular.

LIFE CYCLE
The environmental impacts of our products are distributed through their life cycle complying extraction, raw materials transport, production, distribution, use and end of life.
Love Tiles minimize these impacts through good practices of environmental management.
At the end of the product 's life cycle, Love Tiles asks for your best management, favoring the reuse or recycling in a perspective of a circular economy.

CYCLE DE VIE
Les impacts environnementaux de nos produits sont distribués tout au long de leur cycle de vie, dans les phases d'extraction, de transport des matières premières, de production, de distribution, d'utilisation et de fin de vie. Chez Love Tiles on minimise ces impacts environnementaux grâce aux bonnes pratiques de gestion de l'environnement.
Dans l'utilisation et la fin de vie, on appel à votre meilleure gestion en privilégiant la réutilisation ou le recyclage dans une perspective d'économie circulaire.

LEBENSZYKLUS
Die Umweltbelastung unserer Produkte prägt jede Phase ihres Lebenszyklus – die Gewinnung und das Transport der Rohstoffe, die Produktion, die Lieferung, der Gebrauch, die Entsorgung. Love Tiles verniedlicht durch gute Programme des Umweltmanagements die Umweltbelastung. In der Phase des Gebrauchs und der Entsorgung bitten wir Sie um eine bevorzugte Auswahl von Weiterverwenden oder Recycling.

ЖИЗНЕННЫЙ ЦИКЛ
Экологические воздействия влияют на нашу продукцию на протяжении всего жизненного цикла, на этапах добычи, транспортировки сырья, производства, дистрибуции, использования и окончания срока службы. Love Tiles минимизирует данные экологические воздействия и последствия благодаря хорошей практике управления окружающей средой. В использовании продукции мы призываем вас следить за окружающей средой, отдавая предпочтение повторному использованию материала или его переработке.

CICLO DI VITA
L'impatto ambientale dei nostri prodotti si distribuisce durante il loro ciclo di vita, nelle tappe di estrazione e trasporto delle materie prime, produzione, distribuzione, uso e smaltimento. La Love Tiles minimizza tutto ciò, attraverso buone pratiche di gestione ambientale.
Nell'uso e nello smaltimento, ci appelliamo alla vostra gestione, perché privilegiate il riuso o il riciclaggio in una prospettiva di economia circolare.

LOVE
CERAMIC TILES

LOVE green

HABITAR O PRESENTE VIVER O FUTURO

A Love Tiles cria coleções cerâmicas para habitar o presente e o futuro, plenas de beleza, dotadas de qualidade de um design exclusivo. A mesma beleza e a mesma harmonia que sonhamos para o mundo em nosso redor.
Para isso a Love Tiles cria e protege, reduzindo ao mínimo o impacto ambiental da sua atividade, por meio da constante pesquisa da eco sustentabilidade no local de trabalho, nas matérias utilizadas e nos processos produtivos, como demonstram as certificações ambientais obtidas.
Queremos contribuir para que vivamos num mundo melhor, sabendo que a eco sustentabilidade é desenvolvimento olhando para o futuro...
Este é o nosso esforço quotidiano e a nossa responsabilidade social.

INHABIT THE PRESENT LIVE THE FUTURE

Love Tiles creates ceramic collections to live the present and the future, surrounded by beauty, protected by the quality of an exclusive design of living in total freedom. The same beauty and marvelous harmony that we dream for the world around us.
For this, Love Tiles creates and protects, by reducing to its minimum the environmental impact coming from its activity, through the constant research of the total eco-sustainability in the working environment, on the materials used and in the productive processes, as the obtained environmental certificates demonstrate. We want to contribute for a better world and only what is really eco-sustainable can be considered as development with future vision...
This is our daily commitment and our social responsibility.

HABITER LE PRÉSENT VIVRE L'AVENIR

Love Tiles crée des collections pour vivre le présent et l'avenir, entourées par la beauté, protégés de la qualité d'un design exclusif à vivre en toute liberté.
La même beauté et la même harmonie dont nous rêvons pour notre monde. C'est pour cette raison que Love Tiles crée et protège en réduisant au maximum l'impact environnemental de son activité, grâce à la permanente recherche de l'équilibre écologique dans l'environnement de travail, dans les matières utilisées et dans le processus productif, comme le démontre les certifications environnementales obtenues. Nous voulons contribuer à ce que vous viviez dans un monde plus beau, plus écologique donc plus développé et orienté vers l'avenir. Ceci est notre engagement quotidien et notre responsabilité sociale.

WOHNEN IN DER GEGENWART UND DIE ZUKUNFT ERLEBEN

Love Tiles kreiert Keramikkollektionen mit dem Konzept "wohnen in der gegenwart und die zukunft erleben". Diese Kollektionen zeichnet eine außergewöhnliche Schönheit, höchste Qualität und exklusives Design aus. Diesselbe Schönheit und Harmonie, die wir uns für die Welt in unserem Umkreis erträumen.
Danach richtet Love Tiles ihre Produktion aus: Für die Herstellung benutzen wir umweltschonende Verfahren, m.a.W. die Umwelt auswirkungen sind auf das Mindestmaß reduziert. Die gelingt uns durch konstante Forschungsarbeiten auf dem Gebiet der Öko-Nachhaltigkeit am Arbeitsplatz, bei den verwendeten Materialien und bei den Herstellungsverfahren. Davon zeugen die Umweltzertifikate, mit denen wir ausgezeichnet wurden. Wir möchten einen Beitrag für eine bessere Welt leisten, wohl wissend, dass die Öko-Nachhaltigkeit Entwicklung in die Zukunft bedeutet.
Dies ist unser alltägliches Anliegen und unsere soziale Verantwortung.

ABITARE IL PRESENTE VIVERE IL FUTURO

Love Tiles crea collezioni ceramiche per abitare il presente e il futuro, piene di bellezza, con la qualità di un design unico. La stessa bellezza e armonia che sogniamo per il mondo che ci circonda.
Per questa ragione Love Tiles crea e protegge, riducendo al minimo l'impatto ambientale delle proprie attività, attraverso la costante ricerca dell'ecosostenibilità sul posto di lavoro, nei materiali utilizzati e nei processi produttivi, come dimostrato dalle certificazioni ambientali ottenute.
Vogliamo contribuire a costruire un mondo migliore, sapendo che l'ecosostenibilità è sviluppo con uno sguardo al futuro.
Questo è il nostro sforzo quotidiano e la nostra responsabilità sociale.

TECNOLOGIA DE VANGUARDA

Cada matéria prima natural utilizada, cada processo produtivo e cada tecnologia da complexa actividade da unidade industrial da Love Tiles, são estudadas de forma a minimizar o impacto ambiental, poupando e reciclando, com a vontade de transformar desperdícios em recursos e otimizar a utilização da energia produzida. A Love Tiles está na vanguarda na adoção de medidas ecologicamente sustentáveis as quais são demonstradas pelos mais minuciosos controlos quotidianamente efectuados.

CUTTING-EDGE TECHNOLOGY

Each raw material used, each productive process and each technology of the complex activity of the Love Tiles sites are studied in order to reduce the environmental impact, by saving, recycling, filtering, with the will of transforming the waste in resources and optimize the use of energy. Love Tiles is on the cutting-edge of adopting ecologically sustainable practices and this is demonstrated by the most accurate controls, repeated on a daily basis.

TECHNOLOGIE D'AVANT-GARDE

Chaque matière première, chaque processus productif et chaque technologie de la complexe activité des établissements de Panariagroup sont étudiés de façon à limiter l'impact environnemental en épargnant, recyclant et filtrant avec la volonté de transformer les déchets en ressources et optimiser l'usage de l'énergie produite. Gres Panaria Portugal est à l'avant-garde dans l'action et les pratiques pour l'environnement comme le démontrent les contrôles les plus exigeants répétés au quotidien.

SPITZENTECHNOLOGIE

Love Tiles hat die verwendeten Rohstoffe, Produktionsverfahren und Techniken in der komplexen Unternehmensaktivität im Bereich der industriellen Produktion des Unternehmens im Hinblick auf die Umweltauswirkungen eingehendst analysiert. Materialeinsparungen und Recycling stehen auf der Tagesordnung. Aus Abfällen werden Ressourcen. Die Nutzung freigesetzter Energie ist optimiert. Love Tiles ist führend, was die Verwendung von ökologisch nachhaltigen Maßnahmen betrifft. Täglich minutiös durchgeführte Kontrollen sind der Beweis dafür.

TECNOLOGIA ALL'VANGUARDIA

Ciascuna delle materie prime naturali utilizzate, ogni processo produttivo e ogni tecnologia della complessa attività dell'unità industriale di Love Tiles, sono studiati per ridurre al minimo l'impatto ambientale, risparmiando e riciclando, con la volontà di trasformare i rifiuti in risorse e ottimizzare l'utilizzo dell'energia prodotta. Love Tiles è all'avanguardia nell'adozione di misure ecologicamente sostenibili, dimostrate dai più rigorosi controlli quotidiani effettuati.

A CERTIFICAÇÃO AMBIENTAL

A unidade industrial da Love Tiles obteve certificações ambientais internacionais de grande prestígio. Entidades e organismos de controlo reconheceram oficialmente o trabalho feito pela empresa para a salvaguarda dos recursos naturais do planeta. Esta certificação testemunha as boas práticas ambientais da Love Tiles, na salvaguarda do desenvolvimento sustentável. Esta é uma demonstração concreta de como é possível conciliar Qualidade, Inovação Industrial e Design com uma séria politica de salvaguarda do ambiente.

THE ENVIRONMENT CERTIFICACION

Love Tiles have obtained the most prestigious International environmental certifications. Agencies and control bodies have officially recognized the work done by the company for the safeguarding of the earth's natural resources. These certifications are proof of the high standards attained by Love Tiles, a company which is a forerunner in terms of sustainable development. These are a clear proof of how it is possible to reconcile quality, industrial innovation and design with a serious policy for environmental safeguard.

LA CERTIFICATION ENVIRONNEMENTALE

Love Tiles a obtenu de prestigieuses certifications environnementales internationales. Les entités et les organismes de contrôle ont officiellement reconnu le travail fourni par l'entreprise pour la préservation des ressources naturelles de la planète. Cette certification témoigne des bonnes pratiques environnementales de Gres Panaria Portugal, pour la protection du développement durable.
C'est une démonstration concrète de l'engagement de l'entreprise en termes de Qualité, d'Innovation et de Design, le tout allié à une sérieuse politique de protection de l'environnement.

UMWELTZERTIFIZIERUNG

ie Produktionseinheit der Love Tiles wurde weltweit mit Umweltzertifizierungen von großem Prestige ausgezeichnet. Körperschaften und Kontrolleinrichtungen erkannten offiziell das Unternehmen für seine Arbeit zum Erhalt der Naturressourcen auf der Erde an. Die Zertifizierungen bezeugen die guten Umweltpraktiken der Love Tiles für die Wahrung der nachhaltigen Entwicklung. Dies ist ein konkreter Beweis dafür, dass es möglich ist, Qualität, industrielle Innovation und Design mit einer ernsthaften Politik der Umwelterhaltung zu vereinbaren.

A CERTIFICAZIONE AMBIENTALE

L'unità industriale di Love Tiles ha ottenuto prestigiose certificazioni ambientali internazionali. Enti e organismi di controllo hanno ufficialmente riconosciuto il lavoro svolto dalla società per la salvaguardia delle risorse naturali del pianeta. Questa certificazione attesta le buone pratiche ambientali di Love Tiles, nella tutela dello sviluppo sostenibile. Si tratta di una concreta dimostrazione di come sia possibile conciliare Qualità, Innovazione Industriale e Design con una seria politica di tutela dell'ambiente.

CONDIÇÕES GERAIS DE VENDA

1 - Aplicabilidade das Condições

1.1. As condições gerais em seguida elencadas e especificadas - de ora em diante denominadas "CONDIÇÕES" -, constituem parte integrante do contrato de compra e venda de mosaicos e outros produtos cerâmicos - de ora em diante designados como o "PRODUTO" ou os "PRODUTOS" - fabricados pela Love Tiles - Gres Panaria Portugal, S.A., também designado como o "FABRICANTE".

1.2. Salvo casos especifícos ou excepcionais, em que a aplicação destas condições seja expressamente alterada através de acordo escrito e assinado pelo FABRICANTE, elas representam as condições exclusivas aplicadas a essa venda. Se uma ou mais partes das presentes CONDIÇÕES ou contratos, individualmente considerados e dos quais elas façam parte, forem alguma forma julgadas nulas, inválidas ou inaplicáveis por razões de força maior, as CONDIÇÕES gerais ou particulares permanecerão válidas no seu conjunto, sendo que as condições inválidas serão substituídas por novas disposições que reproduzirão, tanto quanto possível, a intenção original das partes.

2 - Execução do Contrato de Venda - Entrega dos Produtos

2.1. O contrato é celebrado quando a parte poponente ou o comprador tiver conhecimento da aceitação escrita do mesmo pela contraparte.

2.2. Uma encomenda que não tiver sido confirmada por escrito não pode, em nenhuma circustância, ser considerada como não sido aceite, excepto se tiver sido executada pelo FABRICANTE através do envio ou da entrega dos PRODUTOS. A entrega parcial dos PRODUTOS encomendados não implica a aceitação da totalidade da encomenda, mas apenas da parte dos PRODUTOS que tenham sido efectivamente entregue.

2.3. Excepto se o contrário for expressamente acordado por escrito, a entrega dos PRODUTOS será efectuada exclusivamente no território de Portugal Continental.

2.4. Salvo acordo em contrário, todas as datas que forem indicadas para efeitos de entrega, serão consideradas como datas aproximadas.

3 - Características dos Produtos - Garantia - Reclamações

3.1. Os PRODUTOS fabricados pela Love Tiles - Gres Panaria Portugal, S.A. são produzidos em conformidade com as normas europeias aplicáveis. O FABRICANTE vende exclusivamente a revendedores profissionais, sendo estes responsáveis por prestarem informações técnicas correctas aos utilizadores finais ou aos retalhistas.

A classificação dos PRODUTOS é indicada pelo FABRICANTE no material publicitário e/ou nas tabelas de preços. Em consequência, o comprador deverá usar os PRODUTOS em conformidade com as especificações do FABRICANTE.

Para facilitar a sugestão de uso e adaptar a especificação standart à produção especifíca do FABRICANTE, sobre todos os produtos, listas de preços ou catálogos existem símbolos específicos que indicam a utilização aconselhada para cada produto por parte do FABRICANTE.

3.2. As diferenças de tonalidade ou crominância eventualmente constáveis não decorrem de defeitos do PRODUTO, sendo sim uma característica específica do material cerâmico que foi submetido a cozedura a altas temperaturas. A característica especial de "resistência à congelação" apenas se aplica aos produtos que o FABRICANTE tenha especificamente garantido para esse efeito através de uma indicação expressa no seu material publicitário e/ou nas tabelas de preços. No caso de inexistência desta indicação, os produtos serão considerados única e exclusivamente para utilização em interior ou, em qualquer caso, para utilização em locais que não estejam expostos a elementos atmosféricos que alterem as carcterísticas de resistência ou aparência original do PRODUTO (ex.: precipitação atmosférica, sol, humidade, temperaturas baixas, etc.).

3.3. Os mosaicos com as faces polidas podem alterar o seu aspecto quando utilizados no pavimento de divisões que tenham acesso a partir do exterior, ou divisões onde se preveja intensa circulação pedonal. Os mosaicos polidos podem também ser escorregadios, especialmente quando estiverem molhados ou sob o efeito de humidade. Atento a este motivo o FABRICANTE desaconselha a utilização destes PRODUTOS em locais públicos. Para os locais de circulação intensa de pessoas, o comprador apenas deverá adquirir PRODUTOS classificados pelo FABRICANTE como "PEI V" ou "Grés Porcelânico Toda-a-Massa", em particular os PRODUTOS que o FABRICANTE recomendar especificamente para utilização em locais públicos.

3.4. As apresentações dos PRODUTOS em folhetos ou em qualquer outro material promocional do FABRICANTE são meramente ilustrativos e não representam necessariamente o resultado final estético decorrente da instalação desse produto específico.

3.5. O FABRICANTE garante a boa qualidade e a ausência de defeitos nos PRODUTOS fornecidos. A garantia não se aplica aos PRODUTOS classificados pelo FABRICANTE como inferiores à qualidade de 1ª escolha, ou aos stocks de produtos que tenham sido descontinuados, quando forem vendidos a granel ou indicados como lote especial.

3.6. O FABRICANTE não é responsável por quaisquer defeitos e/ou anomalias existentes nos PRODUTOS que não derivem das especificações técnicas dos mesmos, mas antes decorram de uma utilização inadequadas dos PRODUTOS por parte dos adquirentes e/ou de terceiros que actuem em seu nome. Em particular, o FABRICANTE não aceita quaisquer reclamações ou litígios ligados às situações anteriormente descritas.

3.7. As reclamações decorrentes da existência de defeitos patentes ou ocultos terão de ser efectuados por escrito ao FABRICANTE pelo comprador no prazo de 60 dias a contar da data de entrega das mercadorias. A responsabilidade do Fabricante por defeitos inerentes aos produtos entregues ao comprador fica expressamente limitado ao prazo de 2 anos a contar da data de recepção do bem pelo comprador.

3.8. Em geral, a garantia apenas se aplica aos defeitos detectados em produtos que ainda não foram aplicados. Relativamente aos defeitos detectados após os PRODUTOS terem sido aplicados, a garantia apenas pode aplicar-se se o FABRICANTE tiver confirmado que a colocação do PRDUTO foi efectuada em conformidade com as melhores regras da actividade (DIN 18352), bem como de acordo com os procedimentos descritos no manual de aplicação e manutenção do FABRICANTE.

3.9. A garantia concedida pelo FABRICANTE limita-se à substituição dos produtos defeituosos por outros produtos do mesmo tipo sem defeito, acrescida das despesas de transporte. É expressamente excluído o reembolso de quaisquer outros custos e/ou despesas e em particular os custos de demolição e recolocação. Em qualquer caso, a garantia do FABRICANTE não pode ultrapassar em cinco vezes o valor do material reclamado, até um valor máximo de 10.000 Euros.

3.10. O FABRICANTE não é responsável por quaisquer reclamações devidas a uma classificação de materiais cerâmicos efectuada por organismos de certificação e controlo e diferentes dos europeus indicados no artigo 3.1, com base em especificações técnicas que não correspondam às indicadas pelo FABRICANTE. Qualquer eventual análise técnica especializada solicitada pelo comprador será baseada na correspondência dos materiais vendidos com as características técnicas indicadas pelo FABRICANTE, nesse momento em vigor em Portugal.

4 - Preços e Condições de Pagamento

4.1 Os preços de venda dos PRODUTOS são os indicados na tabela de preços do FABRICANTE vigente à data de confirmação da encomenda. Para contratos de venda com entregas separadas, o preço será o constante da tabela de preços em vigor à data de cada uma das entregas, excepto se as partes contraentes dispuserem por escrito em sentido diverso.

Para os PRODUTOS destinados a mercados estrangeiros o preço será calculado, por indicação do FABRICANTE, na moeda estrangeira do país de destino ou em Euros.

4.2. Excepto se o contrário for expressamente acordado, os pagamentos serão efectuados através de transferência bancária, no prazo de 30 dias a contar da data da factura. Todas as despesas bancárias e de transferência correm por conta do comprador. No caso de atraso na realização do pagamento o FABRICANTE, juntamente com quaisquer outros prejuízos, terá direito, sem necessidade de aviso prévio ao comprador, a aplicar uma taxa de juros de mora e punitivos equivalente à taxa EURIBOR a 6 meses acrescida de 5%.

5 - Agentes do Fabricante

5.1. Os agentes do FABRICANTE promovem a venda dos PRODUTOS e não estão autorizados a agir em nome e por conta do FABRICANTE, excepto no caso de obterem autorização específica expressa para o efeito.

5.2. As encomendas recebidas pelos agentes não vinculam o FABRICANTE e deverão, portanto, ser expressamente aceites por escrito pelo próprio FABRICANTE.

6 – Reserva de Propriedade

6.1. É acordado entre as partes que a venda dos PRODUTOS seja efectuada com reserva de propriedade por parte do FABRICANTE até que o pagamento integral do preço acordado esteja integralmente saldado por parte do comprador. No entanto, o risco de perda das mercadorias é transferido para o comprador no momento da entrega dos PRODUTOS.

6.2. No caso de vendas para países estrangeiros, quando as mercadorias são vendidas e entregues a terceiros no âmbito das actividades comerciais normais do Comprador e a propriedade das mercadorias ainda não tiver sido transferida, o direito de reserva de propriedade do FABRICANTE permanece válido perante terceiros.

6.3. No caso de atrasos no pagamento o FABRICANTE tem o direito, sem necessidade de recorrer a qualquer formalidade, incluindo qualquer aviso prévio ao comprador, a recolher todas as mercadorias sujeitas a reserva de propriedade e, se legalmente consagrado, todos os títulos de crédito perante terceiros, ficando expressamente reservado o direito do FABRICANTE recorrer a todos os meios legais ao seu dispor tendo em vista o ressarcimento dos prejuízos que tiver sofrido ou que vier a sofrer em consequência da conduta inadimplente do Comprador.

7 – Caso de Força Maior

7.1. O FABRICANTE não será responsável perante o comprador por qualquer incumprimento do contrato, incluindo a falta de entrega ou a entrega com atraso do PRODUTO, causada por factos que estão fora do seu controlo, como por exemplo, a não entrega ou entrega com atraso de materiais por parte de fornecedores, avarias nas instalações, greves, factos da natureza, interrupções no fornecimento de energia eléctrica, suspensão ou dificuldades de transporte.

8 – Legisliação Aplicável - Foro Competente

8.1. Na interpretação, integração ou rectificação das presentes condições vigorarão as disposições constantes do Decreto-Lei Nº 67/2003, de 8 de Abril, que não tenham sido afastadas por acordo das partes.

LOVE
CERAMIC TILES

GENERAL SALES CONDITIONS

1 – Application of the condition.

1.1. The following general conditions (hereinafter "the CONDITIONS" constitute an integral part of the sales contract of tiles and other ceramic products (hereinafter "the PRODUCT of PRODUCTS") manufactured by Love Tiles - Grés Panaria Portugal, S.A., (hereinafter "the MANUFACTURER").

Except for specific cases, where these conditions are expressly derogated by written agreements signed by the MANUFACTURER, they represent the only terms for these sales. If one or more parts of these CONDITIONS, or single contracts included therein, are found to be invalid, the CONDITIONS, or details thereof, will remain valid as a whole; the invalid terms will be replaced with new agreements, which will reproduce, as for as it is possible, the original intention of the parties.

2 – Execution of the sales contract - Delivery of products

2.1. The contract is executed when the proposing party or the purchaser is aware of the written consent of the other party.

2.2. An order that as not been confirmed in writing cannel, under circumstances be considered as accepted, unless performed by the MANUFACTURER by way of the shipment or delivery of the PRODUCTS. The partial delivery of ordered PRODUCTS does not imply the acceptance of the entire order, but only that part of the PRODUCTS which as been effectively delivered.

2.3. Unless otherwise agreed in writing, the delivery of the PRODUCTS in Portugal or abroad, will be carried out according to the "Ex-works" term. This term of delivery, as well as the other terms of the delivery which may be agreed upon in writing, is referred to the ICC INCOTERMS in force at the moment of the sale.

2.4. Unless otherwise agreed, all the dates which are indicated for delivery shall be considered as approximate.

3 – Product Specifications Warranty - Claims

3.1. The PRODUCTS manufactured by Love Tiles - Grés Panaria Portugal, S.A. are produced according to the European UNI – DIN – EN rules. The MANUFACTURER sells exclusively to professional dealers; these are responsible for giving the right technical information to the final user or retailers.

The PRODUCTS classifications are indicated by the MANUFACTURER on advertising material and/or in the price lists. Therefore the purchaser must use the PRODUCTS according to the specifications of the MANUFACTURER. In order to ease the suggestions of use and conform the standard classifications to the specific production of the MANUFACTURER, on every product, price-list or catalogue there are specific symbols that indicate the intended use suggested by the MANUFACTURER.

3.2. The shade differences are not a defect of the PRODUCT, but a specific characteristic of the material which as been fired at a high temperature. The special "freeze-proof" requirement does not only apply to PRODUCTS that the MANUFACTURER has specifically guaranteed by giving specific indication on the advertising material and/or price lists. Without this specific indication the PRODUCTS shall be considered to be only and exclusively for internal use, or, in any case, to be used in places not exposed to the elements. The "freeze-proof" warranty has not a two years term.

3.3. The tiles with polished surfaces should not be used on ground floor rooms that have external access, not in rooms where there is a particular heavy walking. The shiny likes may also be slippery, especially when wet; for this reason the MANUFACTURER, recommend not to use These PRODUCTS in public places. For places intended to heavy walking, the purchaser shall only buy PRODUCTS classified by the MANUFACTURER as PEI V, and in particular those PRODUCTS that the MANUFACTURER specifically recommends for use in public places.

3.4. The representations of PRODUCTS on depliants and other advertising material of the MANUFACTURER, are solely illustrative and do not represent necessarily the final aesthetic result of the laying of that specific PRODUCT.

3.5. The MANUFACTURER guarantees the good quality and the absence of defects of the PRODUCTS supplied. The warranty does not apply to PRODUCTS classified by the MANUFACTURER as inferior to the 1st choice quality, or to stocks of PRODUCTS which are gone out of production, when sold in bulk or indicated as special lot.

3.6. The MANUFACTURER shall not be liable for any defects and/or anomalies in the PRODUCTS due not to the quality of the PRODUCTS, but to the improper use of the PRODUCTS by the purchasers and/or third parties acting on their behalf. In particular, the MANUFACTURER shall not accept any claim or disputes in connection with the situations above described.

3.7. The claims must be notified in writing to the MANUFACTURER by the purchaser within (60) days from the date of delivery of the goods. In case of hidden defects the notice period will be (60) days from the date of the discovery of the defect. Under no circumstances the MANUFACTURER shall be liable for defects which are discovered twelve months alter the delivery of the PRODUCTS to the first Purchaser of the MANUFACTURER and therefore the Purchaser's appeal action against the MANUFACTURER is exclusively limited within 2 years from delivery of the goods.

3.8. In principle, the warranty does not apply to defect discovered on PRODUCTS not yet laid down. For hidden defects discovered after the PRODUCTS had been laid down, the warranty may apply only if the MANUFACTURER has verified that the laying of the PRODUCT has been done according to the best knowledge of workmanship (DIN 18352).

3.9. The warranty given by the MANUFACTURER is limited to the replacement of defective products with other non-defective of the same type, plus the transportation costs. It is expressly excluded the reimbursement of any other costs and/or expenses and in particular the costs of demolition and relaying. In all circumstances, the warranty of the MANUFACTURER cannot exceed five times the value of the claimed material, up to a maximum of Euro 10.000,00.

3.10. The MANUFACTURER shall not be liable for claims due to a classification of ceramic materials made by organisms of certification and control different from the European ones indicated in art. 3.1., on the basis of technical specifications which do not correspond with those indicated by the MANUFACTURER. Any eventual technical expertise request by the purchaser shall be based on the correspondence of the materials sold with the technical specifications indicated by the MANUFACTURER, at that time in force in Portugal.

4 – Prices and Payment Conditions

4.1. The selling prices of the PRODUCTS are those indicated in the MANUFACTURER'S price list in force at the date of the order's confirmation. For the PRODUCTS which are intended for foreign markets the price shall be calculated, at the MANUFACTURER choice, in the foreign currency of the country of destination or in Euro.

4.2. Unless otherwise agreed, payments shall be made by the purchaser through bank transfer, within 30 days from the date of the invoice. All the bank and negotiation expenses are at purchaser's charge. In case of delay in payment, the MANUFACTURER, along with any other damages, shall be entitled, without any prior notice to the purchaser, to an overdue interest equal to the EURIBOR, 6 (six) months, rate plus a percentage of 5%.

5 – Manufacture's Agents

5.1. The agents of the MANUFACTURER promote the sales of the products and are not authorized to act in the name and on behalf of the MANUFACTURER, unless specific written authorization.

5.2. The orders collected by the agents are not binding for the MANUFACTURER, and shall therefore be expressly accepted in writing by the MANUFACTURER itself.

6 – Retention of Title

6.1. It is agreed between the parties that the sale of PRODUCTS is made under the retentions of title right of the MANUFACTURER until the complete payment of the agreed price has been made by the purchaser. However, the risk of the loss of the goods in transferred to the purchaser at the moment of the delivery of the PRODUCTS. In case of sales into foreign countries, when the goods are sold and delivered to third parties within the Purchaser's normal commercial activities and the property of the goods has not been yet transferred, the retention of title right of the MANUFACTURER still remains valid also against third parties, if permitted by the law.

6.2. In case of delay in payments the MANUFACTURER is entitled, without any formality, including any prior notice to the purchaser, to collect all the goods subject to the retention of title and, if permitted by the law, all the relating documents of credit toward third parties, being expressly reserved the right of the Manufacturer to proceed at law for the compensations of the damages suffered.

7 – Force Majeure

7.1. The MANUFACTURER shall not be liable to the purchaser for any unfulfilment of the contract, including the non-delivery or delayed delivery, caused by evens that are out of the MANUFACTURER'S reasonable control, such as, for example the non-delivery or delayed of working materials by the suppliers, factory breakdowns, strikes or other trade union actions, interruption of energy supplies, suspension or difficulties with transports.

8 – Applicable Law – Competen Court

8.1. The export sales contracts in which the MANUFACTURER takes part are governed, where not derogated by the present CONDITIONS, by the Vienna Convention of April 11" 1980 on the International Sales Contracts.

8.2. For any disputes relating to the sale of PRODUCTS of the MANUFACTURER and all other related issues, the only competent Court shall be the place where the MANUFACTURER has its registered seal, also for what concerns the enforcement of documents of credit received by the MANUFACTURER as a mean of payment.

CONDITIONS GÉNÉRALES DE VENTE

1 – Applicabilité des Conditions

1.1. Les conditions générales de vente énoncées et spécifiées par la suite – dorénavant désignées "CONDITIONS" -, font partie intégrante du contrat de vente de mosaïques et d'autres produits céramiques - dorénavant désignés "PRODUIT" ou "PRODUITS" - fabriqués par Love Tiles - Gres Panaria Portugal, S.A., également désigné "FABRICANT".

1.2. Sauf cas spécifiques ou exceptionnels, où l'application de ces conditions est expressément modifiée par accord écrit et signé par le FABRICANT, elles représentent les conditions exclusives appliquées à cette vente. Si une ou plusieurs des parties des présentes CONDITIONS ou contrats, individuellement considérées et dont elles font parties, sont jugées nulles, invalides ou inapplicables pour des raisons de force majeure, les CONDITIONS générales ou particulières seront dans leur ensemble valides, et les conditions invalides seront remplacées par de nouvelles dispositions qui reproduiront, aussi bien que possible, l'intention originale des parties.

2 – Exécution du Contrat de Vente – Livraison des Produits

2.1. Le contrat est célébré lorsque le contractant ou acheteur prend connaissance de l'acceptation écrite du contrat par l'autre partie.

2.2. Une commande non confirmée par écrit ne peut, en aucune circonstance, être considérée comme acceptée, excepté si elle est exécutée par le FABRICANT à travers l'envoi ou la livraison des PRODUITS. La livraison partielle des PRODUITS commandés n'implique pas l'acceptation de la totalité de la commande, mais uniquement de la partie des PRODUITS effectivement livrés.

2.3. Sauf cas expressément accordé par écrit, la livraison des PRODUITS se fera exclusivement sur le territoire métropolitain du Portugal (Portugal Continental).

2.4. Sauf accord contraire, toutes les dates indiquées pour des effets de livraison, seront considérées comme des dates approximatives.

3 - Caractéristiques des Produits - Garantie - Réclamations

3.1. Les PRODUITS fabriqués par Love Tiles - Gres Panaria Portugal, S.A. sont produits conformément aux normes européennes applicables. Le FABRICANT vend exclusivement à des revendeurs professionnels, ceux-ci devant fournir les informations techniques correctes aux utilisateurs finaux ou aux détaillants.

Le classement des PRODUITS est indiqué par le FABRICANT sur le matériel publicitaire et/ou sur les listes de prix. En conséquence, l'acheteur devra utiliser les PRODUITS conformément aux spécifications du FABRICANT.

Afin de faciliter la suggestion d'usage et d'adapter la spécification standard à la produition spécifique du FABRICANT, il existe, sur tous les produits, les listes de prix ou les catalogues, des symboles spécifiques qui indiquent l'utilisation conseillée par le FABRICANT pour chaque produit.

3.2. Les différences de tonalité ou la chrominance éventuellement constatées ne sont pas des défauts du PRODUIT, mais une caractéristique spécifique du matériau céramique soumis à une cuisson à hautes températures. La caractéristique particulière de "résistance à la congélation" ne s'applique qu'aux produits que le FABRICANT aura spécifiquement garantis à cet effet avec indication expresse sur son matériel publicitaire et/ou sur les listes de prix. En l'absence de cette indication, les produits se destinent uniquement et exclusivement à un usage intérieur ou, en tous cas, à une utilisation en local non exposé à des éléments atmosphériques susceptibles de modifier les caractéristiques de résistance ou d'apparence originale du PRODUIT (ex. : précipitation atmosphérique, soleil, humidité, basses températures, etc.).

3.3. Les mosaïques de finition polie peuvent changer d'aspect quand ils sont utilisés au sol dans des pièces ayant accès à l'extérieur, ou dans des pièces avec une intense circulation piétonne. Les mosaïques polies peuvent aussi être glissantes, particulièrement quand elles sont mouillées ou sous l'effet de l'humidité. Conscient de cette particularité, le FABRICANT ne recommande pas l'utilisation de ces PRODUITS dans des lieux publics. Pour les locaux dont le passage ou la circulation de personnes est intense, l'acheteur devra acquérir des PRODUITS classés par le FABRICANT "PEI V" ou "Grès Porcelainique Pleine Masse", notamment les PRODUITS que le FABRICANT recommandera tout particulièrement pour une utilisation dans des lieux publics.

3.4. Les présentations des PRODUITS sur brochures ou sur un tout autre matériel promotionnel du FABRICANT sont purement illustratives et ne représentent pas nécessairement le résultat final esthétique découlant de l'installation de ce produit spécifique.

3.5. Le FABRICANT garantit la bonne qualité et l'absence de défauts sur les PRODUITS fournis. La garantie ne s'applique pas aux PRODUITS classés par le FABRICANT comme étant de qualité inférieure à la qualité de 1er choix, ou aux stocks de produits discontinus, lorsque ceux-ci sont vendus en gros ou sous l'indication lot spécial.

3.6. Le FABRICANT n'est pas responsable des défauts et/ou anomalies existant sur les PRODUITS qui ne dérivent pas des spécifications techniques de ceux-ci, mais qui sont la conséquence d'une utilisation inadéquate des PRODUITS de la part des acquérants et/ou de tierces personnes qui agissent en son nom. Notamment, le FABRICANT n'accepte aucune réclamation ou litige lié aux situations précédemment décrites.

3.7. Les réclamations découlant de l'existence de défauts visibles ou cachés devront être adressées par écrit au FABRICANT par l'acheteur dans un délai de 60 jours à compter de la date de livraison des marchandises. La responsabilité du Fabricant pour des défauts inhérents aux produits livrés à l'acheteur est expressément limitée à un délai de 2 ans à compter de la date de réception du bien par l'acheteur.

3.8. En général, la garantie ne s'applique qu'aux défauts détectés sur des produits qui n'ont pas encore été remis. Relativement aux défauts détectés après que les PRODUITS aient été remis, la garantie ne peut s'appliquer que si le FABRICANT confirme que la remise du PRODUIT a été réalisée conformément aux meilleures règles d'activité (DIN 18352), et en application des procédures décrites dans le manuel d'application et d'entretien du FABRICANT.

3.9. La garantie accordée par le FABRICANT se limite à l'échange des produits défectueux par d'autres produits du même type sans défaut, en plus des frais de transport. Le remboursement de tout autre frais et/ou dépenses est expressément exclu, notamment les frais de destruction et de remise en place. Quoiqu'il en soit, la garantie du FABRICANT ne peut dépasser cinq fois la valeur du matériel faisant l'objet de la réclamation, jusqu'à une valeur maximum de 10.000 Euros.

3.10. Le FABRICANT n'est pas responsable des réclamations dues à un classement de matériaux céramiques réalisé par des organismes de certification et de contrôle autres que les organismes européens mentionnés à l'article 3.1, reposant sur des spécifications techniques qui ne correspondent pas aux spécifications indiquées par le FABRICANT. Toute éventuelle analyse technique spécialisée sollicitée par l'acheteur se basera sur la correspondance du matériel vendu aux caractéristiques techniques indiquées par le FABRICANT, actuellement en vigueur au Portugal.

4 – Prix et Conditions de Paiement

4.1 Les prix de vente des PRODUITS sont ceux indiqués sur la liste de prix pratiquée par le FABRICANT à la date de confirmation de la commande. Pour les contrats de vente avec livraisons séparées, le prix sera celui mentionné sur la liste de prix en vigueur à la date de chacune des commandes, sauf si les parties disposent par écrit d'un accord contraire.

Pour les PRODUITS destinés aux marchés étrangers, le prix sera calculé, sur indication du FABRICANT, dans la devise étrangère du pays de destination ou en Euros.

4.2. Sauf si accord contraire, les paiements s'effectueront par virement bancaire, dans un délai de 30 jours à compter de la date de la facture. Tous les frais bancaires et de virement sont à la charge de l'acheteur. En cas de retard de paiement, le FABRICANT, en plus de tout autre dommage, se réserve le droit, sans avis préalable à l'acheteur, d'appliquer un taux d'intérêts moratoires et punissables équivalent au taux EURIBOR à 6 mois majoré de 5%.

5 - Agents du Fabricant

5.1. Les agents du FABRICANT promeuvent la vente des PRODUITS et ne sont pas autorisés à agir au nom et pour le compte du FABRICANT, excepté en cas d'autorisation spécifique expresse à cet effet.

5.2. Les commandes reçues par les agents n'engagent pas le FABRICANT et devront, par conséquent, être expressément acceptées par écrit par le FABRICANT lui-même.

6 – Réserve de Propriété

6.1. Les parties s'accordent à ce que la vente des PRODUITS soit conclue avec réserve de propriété du FABRICANT jusqu'à ce que le règlement complet du prix accordé soit intégralement soldé par l'acheteur. Cependant, le risque de perte de marchandises est transféré à l'acheteur au moment de la livraison des PRODUITS.

6.2. En cas de ventes à des pays étrangers, lorsque les marchandises sont vendues et livrées à des tiers dans le cadre des activités commerciales normales de l'Acheteur et que la propriété des marchandises n'a pas encore été transférée, le FABRICANT conserve son droit de propriété vis-à-vis des tiers.

6.3. En cas de retard de paiement, le FABRICANT se réserve le droit, sans recourir à aucune formalité, y compris l'avis préalable à l'acheteur, d'exiger la remise de toutes les marchandises soumise à la réserve de propriété et, si légalement accordé, de tous les titres de crédits devant des tiers, et conserve expressément le droit de recourir à tous les moyens légaux à sa disposition au vue de la réparation des dommages subis ou à subir en conséquence du comportement défaillant de l'Acheteur.

7 – Force Majeure

7.1. Le FABRICANT n'est pas responsable devant l'acheteur du non-respect du contrat, y compris de la non-livraison et de la livraison en retard du PRODUIT, provoquée par des évènements indépendants de son contrôle, comme par exemple, la non-livraison ou la livraison en retard de matériaux de la part de fournisseurs, les pénuries dans les installations, les grèves, les faits naturels, les coupures d'énergie électrique, les pénuries ou les difficultés de transport.

8 – Législation Applicable – Tribunal Compétent

8.1. Les contrats d'exportation de marchandises célébrés par le FABRICANT sont régis, dans les cas où ils ne sont pas abrogés par les présentes CONDITIONS, par la Convention de Vienne du 11 avril 1980 sur les contrats de vente internationale de marchandises.

8.2. Tout litige relatif à la vente de PRODUITS du FABRICANT et de tout autre matériau, se fera uniquement auprès du Tribunal compétent, avec renoncement de tout autre tribunal, dans le ressort duquel le FABRICANT a son siège social. Cette règle de tribunal compétent s'applique également à l'exécution des titres de crédit reçus par le FABRICANT comme moyen de paiement.

ALLGEMEINE VERKAUFSBEDINGUNGEN

1 - Anwendbarkeit der Geschäftsbedingungen

1.1. Die im Anschluss angeführten und beschriebenen Geschäftsbedingungen - nachstehend "GESCHÄFTSBEDINGUNGEN" genannt - sind Bestandteil des Kaufvertrags für Fliesen und andere Keramikprodukte - nachstehend "WARE" oder "WAREN" genannt - die von Love Tiles - Gres Panaria Portugal, S.A. - nachstehend auch "HERSTELLER" genannt - hergestellt werden.

1.2. Abgesehen von Sonder- oder Ausnahmefällen, in denen die Anwendung dieser Geschäftsbedingungen durch eine vom HERSTELLER unterschriebene schriftliche Vereinbarung ausdrücklich geändert wird, stellen sie die einzigen auf den Verkauf anwendbaren Geschäftsbedingungen dar. Sollten sich einzelne Bestandteile der vorliegenden GESCHÄFTSBEDINGUNGEN oder Verträge auf irgendeine Weise als nichtig, unwirksam oder infolge höherer Gewalt undurchführbar erweisen, bleibt davon die Wirksamkeit der Allgemeinen oder Besonderen GESCHÄFTSBEDINGUNGEN im Übrigen unberührt. An die Stelle der unwirksamen Bestimmungen treten sodann dieser Bestimmung möglichst nahekommende wirksame Regelungen.

2 - Vertragserfüllung - Warenlieferung

2.1. Der Vertrag gilt dann als abgeschlossen, wenn die vorschlagende Vertragspartei oder der Käufer die schriftliche Annahme desselben durch die Gegenpartei zur Kenntnis nimmt.

2.2. Eine schriftlich nicht bestätigte Bestellung kann unter keinen Umständen als nicht angenommen gelten, es sei denn, dass sie anhand des Versands oder der Lieferung der WARE vom HERSTELLER erfüllt wurde. Die Teillieferung der bestellten WARE setzt nicht die Annahme der gesamten Bestelllung voraus, sondern lediglich des Teils der WARE, der tatsächlich ausgeliefert wurde.

2.3. Mangels ausdrücklicher abweichender schriftlicher Vereinbarung erfolgt die Lieferung der WAREN ausschließlich auf portugiesischem Festland.

2.4. Mangels abweichender Vereinbarung verstehen sich alle für Lieferzwecke angegebenen Termine als ungefähre Termine.

3 - Wareneigenschaften - Garantie - Beschwerden

3.1. Die von Love Tiles - Gres Panaria Portugal, S.A. hergestellten WAREN stehen im Einklang mit der geltenden europäischen Gesetzgebung. Der HERSTELLER verkauft ausschließlich an professionelle Wiederverkäufer, die für die Weitergabe von korrekter Information an Endverbraucher oder Einzelhändler zuständig sind.

Die Klassifizierung der WAREN wird vom HERSTELLER in Werbematerial bzw. Preislisten angeführt. Der Käufer hat die WAREN somit in Übereinstimmung mit den Vorgaben des HERSTELLERS einzusetzen.

Zur Vereinfachung der empfohlenen Anwendung und Anpassung der Standardspezifikation an die spezifische Produktion des HERSTELLERS, weisen alle Waren, Preislisten und Broschüren besondere Symbole auf, welche die vom HERSTELLER bevorzugte Benutzung einer jeden Ware anzeigen.

3.2. Eventuell festgestellte Farb- oder Chrominanzunterschiede sind nicht einem Fehler der WARE zuzuschreiben, sondern stellen besondere Merkmale von keramischem Material dar, das bei hohen Temperaturen gebrannt wird. Die besondere gefrierbeständige Eigenschaft gilt nur für die Erzeugnisse, die vom HERSTELLER in seinem Werbematerial bzw. Preislisten ausdrücklich als solche gekennzeichnet sind. Fehlt diese Kennzeichnung, sind die Erzeugnisse einzig und allein für eine innere Anwendung bzw. grundsätzlich eine Anwendung in Räumen vorgesehen, die keinen atmosphärischen Elementen ausgesetzt sind, welche die Widerstandseigenschaften oder die ursprüngliche Erscheinung der WARE ändern könnten (z. Bsp. Niederschlag, Sonne, Feuchtigkeit, niedrige Temperaturen, usw.)

3.3. Das Aussehen von polierten Fliesen kann Änderungen erfahren, wenn diese in Räumen benutzt werden, die von außen zugegangen werden oder Räumen, in denen mit viel Personenverkehr zu rechnen ist. Polierte Fliesen können ebenfalls rutschig sein, besonders wenn sie nass oder unter Einwirkung von Feuchtigkeit sind. Aus diesem Grund rät der HERSTELLER von einer Anwendung dieser WAREN in öffentlichen Bereichen ab. Für Bereiche mit starkem Personenverkehr ist der Käufer lediglich gehalten WAREN einzusetzen, die vom HERSTELLER als «PEI V» oder «Feinsteinzeug in voller Masse» eingestuft werden, bzw. insbesondere die WAREN, die vom HERSTELLER ausdrücklich für die Anwendung in öffentlichen Bereichen empfohlen werden.

3.4. Die Darstellungen von WAREN in Broschüren oder sonstigem Werbematerial des HERSTELLERS dienen nur der Veranschaulichung und stellen das ästhetische Endergebnis der Verlegung dieses spezifischen Produkts nicht verbindlich dar.

3.5. Der HERSTELLER gewährleistet die Qualität und Mängelfreiheit der gelieferten WAREN. Die Gewährleistung findet keine Anwendung auf WAREN, die vom HERSTELLER nicht als erste Qualität eingestuft sind sowie Warenbestände, die nicht mehr hergestellt werden, wenn sie als Schüttgut verkauft oder als Sondercharge ausgezeichnet sind.

3.6. Der HERSTELLER haftet nicht für Mängel oder Fehlfunktionen der WARE, die nicht von den jeweiligen technischen Spezifikationen hervorgehen, sondern von einer unsachgemäßen Verwendung der WARE seitens der Käufer bzw. von Dritten in ihrem Namen. Insbesondere akzeptiert der HERSTELLER keine mit den oben erwähnten Situationen in Verbindung stehende Beschwerden oder Streitigkeiten.

3.7. Kunden haben dem HERSTELLER gegenüber erkennbare oder versteckte Mängel innerhalb von 60 Tagen nach Erhalt der Ware schriftlich geltend zu machen. Die Haftung des Herstellers für eine fehlerhafte Ware, die dem Käufer ausgeliefert wurde, beschränkt sich ausdrücklich auf 2 Jahre ab Lieferungstermin an den Käufer.

3.8. Im Allgemeinen umfasst die Garantie ausschließlich festgestellte Mängel in Waren, die noch nicht eingesetzt wurden. Nach Einsatz der WAREN festgestellte Mängel werden nur dann von der Garantie erfasst, wenn der HERSTELLER bestätigt, dass die betreffende Verlegung in Übereinstimmung mit der bewährten guten Praxis (DIN 18352), wie auch gemäß den in der Betriebs- und Wartungsanleitung des HERSTELLERS beschriebenen Verfahren erfolgte.

3.9. Die Garantie des HERSTELLERS ist auf den Austausch der fehlerhaften Ware für fehlerfreie Ware desselben Typs, zuzüglich Transportkosten, beschränkt. Die Rückzahlung irgendwelcher anderen Kosten und Ausgaben, insbesondere Rückbau- und Wiederverlegungskosten, sind ausdrücklich ausgeschlossen. Unter keinen Umständen kann die Garantie des HERSTELLERS das Fünffache des beanstandeten Materials überschreiten, bis zu einem Höchstwert von 10.000 Euro.

3.10. Der HERSTELLER haftet nicht für Beschwerden, die auf eine Klassifizierung von keramischem Material zurückzuführen sind, die nicht von den in Art.3.1 angeführten europäischen Zertifizierungs- und Prüfstellen durchgeführt wurden, und auf technische Spezifikationen begründen, die nicht mit denen des HERSTELLERS übereinstimmen. Eine vom Käufer eventuell beantragte technische Begutachtung wird auf die Abstimmung des verkauften Materials mit den in Portugal zu dem Zeitpunkt geltenden und vom HERSTELLER angeführten technischen Merkmalen beruhen.

4 - Preise und Zahlungsbedingungen

4.1 Die Verkaufspreise der WAREN sind den bei der Auftragsbestätigung geltenden Preislisten des HERSTELLERS zu entnehmen. Mangels ausdrücklicher abweichender schriftlicher Vereinbarung der Vertragsparteien gilt für Verkaufsverträge mit Teillieferungen der zum Zeitpunkt jeder Lieferung gültige Preis.

Bei WAREN, die für ausländische Märkte bestimmt sind, wird der Preis, je nach Anweisung des HERSTELLERS, entweder in der Fremdwährung des Bestimmungslands oder in Euro berechnet.

4.2. Mangels ausdrücklicher abweichender Vereinbarung erfolgen Zahlungen innerhalb von 30 Tagen ab Rechnungsdatum durch Banküberweisung. Alle Bank- und Überweisungsgebühren trägt der Käufer. Bei Zahlungsverzug ist der HERSTELLER ohne vorherige Mitteilung an den Käufer berechtigt, auch bezüglich etwaiger anderer Schäden, Verzugszinsen in Höhe von 5% über dem EURIBOR zu verlangen.

5 - Vertreter des Herstellers

5.1. Die Vertreter des HERSTELLERS fördern den Verkauf der WAREN und sind nicht ermächtigt, im Namen und auf Rechnung des HERSTELLERS zu handeln, abgesehen von den Fällen, in denen ihnen dafür eine ausdrückliche Erlaubnis erteilt wird.

5.2. Die von den Vertretern entgegengenommenen Bestellungen binden den HERSTELLER nicht und müssen deshalb schriftlich vom HERSTELLER selbst angenommen werden.

6 - Eigentumsvorbehalt

6.1. Für den Verkauf der WAREN vereinbaren die Vertragsparteien einen Eigentumsvorbehalt zugunsten des HERSTELLERS bis zur vollständigen Zahlung des vereinbarten Kaufpreises seitens des Käufers. Allerdings wird das Risiko des Warenverlusts bereits anlässlich der Lieferung der WARE auf den Käufer übertragen.

6.2. Bei Verkäufen ins Ausland, wenn die Waren im Rahmen normaler Geschäftstätigkeiten des Käufers an Dritte verkauft und geliefert werden, und das Eigentum der Ware noch nicht übertragen wurde, bleibt der Eigentumsvorbehalt des HERSTELLERS gegenüber Dritten wirksam.

6.3. Bei Zahlungsverzug ist der HERSTELLER ohne irgendwelche Förmlichkeiten oder vorherige Mitteilung an den Käufer berechtigt, die gesamte dem Eigentumsvorbehalt unterliegende Ware zurückzunehmen wie auch, falls gesetzlich vorgesehen, alle Schuldverschreibungen gegenüber Dritten, wobei dem HERSTELLER die Geltendmachung der durch den Verzug des Käufers erlittenen oder noch zu erleidenden Schäden anhand aller ihm zur Verfügung stehenden Rechtsmittel vorbehalten bleibt.

7 - Höhere Gewalt

7.1. Der HERSTELLER ist in Fällen höherer Gewalt dem Käufer gegenüber von der vertraglichen Leistungserfüllung, einschließlich einer durchzuführenden oder pünktlichen Lieferung der WARE, befreit. Als Ereignisse höherer Gewalt gelten zum Beispiel die nicht stattgefundene oder verzögerte Materiallieferung von Lieferanten, Betriebsstörungen, Streiks, Naturereignisse, Ausfall oder Störungen von Transportmitteln bzw. Energie.

8 - Geltendes Recht - Gerichtsstand

8.1. Mangels abweichender Vereinbarung der Vertragsparteien finden bei der Interpretation, Integration oder Richtigstellung der vorliegenden Geschäftsbedingungen die Bestimmungen der Rechtsverordnung Nr. 67/2003 vom 8. April Anwendung.

ОСНОВНЫЕ УСЛОВИЯ ПРОДАЖ

1. Применение условия.

1.1. Следующие общие условия (далее — «УСЛОВИЯ») являются неотъемлемой частью договора купли-продажи плитки и других керамических изделий (далее — «ИЗДЕЛИЕ» или «ИЗДЕЛИЯ») производства компании Love Tiles — Grés Panaria Portugal, S.A. (далее — «ПРОИЗВОДИТЕЛЬ»).

За исключением конкретных случаев, когда данные условия прямо отменены подписанными ПРОИЗВОДИТЕЛЕМ письменными соглашениями, они являются исключительными положениями для упомянутых продаж. Если одна или несколько частей настоящих УСЛОВИЙ или отдельные включенные в них положения признаются недействительными, данные УСЛОВИЯ или их отдельные части остаются действительными; недействительные положения подлежат замене новыми соглашениями, которые будут отражать, насколько это возможно, первоначальное намерение сторон.

2. Оформление договора купли-продажи. Поставка изделий

2.1. Договор считается оформленным, когда предлагающей стороне или покупателю становится известно о письменном согласии другой стороны.

2.2. Заказ, который не был подтвержден в письменной форме, ни при каких обстоятельствах не считается принятым, кроме случаев его выполнения ПРОИЗВОДИТЕЛЕМ путем отгрузки или поставки ИЗДЕЛИЙ. Частичная поставка заказанных ИЗДЕЛИЙ не подразумевает принятие всего заказа, а только заказа на фактически поставленную часть ИЗДЕЛИЙ.

2.3. При отсутствии письменного соглашения об обратном поставка ИЗДЕЛИЙ на территории Португалии или за ее пределы осуществляется на условиях «франко-завод». Данное условие поставки, а также другие условия поставки, которые могут быть согласованы в письменной форме, трактуются в соответствии с составленными Международной торговой палатой правилами Инкотермс, действующими на момент продажи.

2.4. Если не оговорено иное, все указанные для поставки даты считаются приблизительными.

3. Гарантия на технические характеристики изделий. Претензии

3.1. ИЗДЕЛИЯ, изготовленные компанией Love Tiles — Grés Panaria Portugal, S.A., произведены в соответствии с европейскими стандартами UNI, DIN и EN. ПРОИЗВОДИТЕЛЬ продает изделия исключительно профессиональным дилерам; они ответственны за предоставление правильной технической информации конечному пользователю или розничным торговцам.

Классификация ИЗДЕЛИЙ указывается ПРОИЗВОДИТЕЛЕМ в рекламных материалах и (или) в прейскурантах. Поэтому покупатель должен использовать ИЗДЕЛИЯ в соответствии со спецификациями ПРОИЗВОДИТЕЛЯ. Для облегчения предоставления рекомендаций по использованию и обеспечения соответствия стандартной классификации конкретной продукции ПРОИЗВОДИТЕЛЯ на каждом изделии, в каждом прейскуранте или каталоге есть специальные знаки, которые указывают целевое использование, рекомендуемое ПРОИЗВОДИТЕЛЕМ.

3.2. Различия в оттенках не являются дефектом ИЗДЕЛИЯ — это специфическая характеристика материала, обжиг которого осуществлялся при высокой температуре. Специальное техническое требование «морозостойкости» относится только к ИЗДЕЛИЯМ, для которых ПРОИЗВОДИТЕЛЬ прямо гарантировал такую характеристику, конкретно указав ее в рекламных материалах и (или) прейскурантах. Не содержащие данное конкретное указание ИЗДЕЛИЯ считаются предназначенными исключительно для внутреннего использования или в любом случае для использования в местах, не подверженных воздействию атмосферных условий. Гарантия морозостойкости предоставляется на срок до двух лет.

3.3. Плитку с полированной поверхностью не следует использовать в помещениях на первом этаже у выхода на улицу, а также в помещениях, где предполагается особенно интенсивный поток людей. Плитка с глянцевой поверхностью может также быть скользкой, особенно если ее поверхность влажная; поэтому ПРОИЗВОДИТЕЛЬ не рекомендует использовать эти ИЗДЕЛИЯ в общественных местах. Для мест, предназначенных для интенсивного пешеходного движения, покупателю следует приобретать только ИЗДЕЛИЯ, классифицированные ПРОИЗВОДИТЕЛЕМ как PEI V, и, в частности, те ИЗДЕЛИЯ, которые ПРОИЗВОДИТЕЛЬ прямо рекомендует для использования в общественных местах.

3.4. Изображения ИЗДЕЛИЙ в рекламных буклетах и других рекламных материалах ПРОИЗВОДИТЕЛЯ являются исключительно наглядными примерами и не обязательно представляют конечный эстетический результат укладки этого конкретного ИЗДЕЛИЯ.

3.5. ПРОИЗВОДИТЕЛЬ гарантирует хорошее качество и отсутствие дефектов поставленных ИЗДЕЛИЙ. Гарантия не распространяется на ИЗДЕЛИЯ, классифицированные ПРОИЗВОДИТЕЛЕМ как изделия ниже высшего сорта, или на запасы ИЗДЕЛИЙ, производство которых прекращено, при продаже насыпью или при указании в качестве специального предложения.

3.6. ПРОИЗВОДИТЕЛЬ не несет ответственности за дефекты и (или) отклонения в ИЗДЕЛИЯХ, которые не являются следствием плохого качества ИЗДЕЛИЙ, а возникли вследствие ненадлежащего использования ИЗДЕЛИЙ покупателями и (или) третьими лицами, действующими от их имени. В частности, ПРОИЗВОДИТЕЛЬ не принимает претензии и не вступает в споры в связи с описанными выше ситуациями.

3.7. О наличии претензий покупатель должен сообщить ПРОИЗВОДИТЕЛЮ в течение 60 (шестидесяти) дней с даты поставки товаров. В случае скрытых дефектов период уведомления равен 60 (шестидесяти) дням с даты выявления такого дефекта. Ни при каких обстоятельствах ПРОИЗВОДИТЕЛЬ не несет ответственности за дефекты, выявленные через двенадцать месяцев после поставки ИЗДЕЛИЙ первому Покупателю ПРОИЗВОДИТЕЛЯ, и поэтому подача жалобы Покупателем на ПРОИЗВОДИТЕЛЯ ограничена исключительно 2-летним периодом со дня поставки товаров.

3.8. В принципе, гарантия не распространяется на дефект, обнаруженный на еще не уложенных ИЗДЕЛИЯХ. Для скрытых дефектов, обнаруженных после укладки ИЗДЕЛИЙ, гарантия может применяться только при условии подтверждения ПРОИЗВОДИТЕЛЕМ факта укладки ИЗДЕЛИЯ на наивысшем профессиональном уровне (DIN 18352).

3.9. Предоставляемая ПРОИЗВОДИТЕЛЕМ гарантия ограничивается заменой дефектных изделий другими изделиями того же типа без дефектов, а также несением транспортных расходов. Прямо исключается возможность возмещения каких-либо других расходов и (или) затрат, в частности, расходов на демонтаж и повторную укладку. Гарантия ПРОИЗВОДИТЕЛЯ ни при каких обстоятельствах не может превышать пятикратного размера стоимости материала, по которому предъявляется претензия, составляя при этом не более 10 000 евро.

3.10. ПРОИЗВОДИТЕЛЬ не несет ответственности по претензиям вследствие классификации керамических материалов, выполненной органами сертификации и контроля, отличными от европейских, указанных в п. 3.1, на основании технических спецификаций, которые не соответствуют указанным ПРОИЗВОДИТЕЛЕМ техническим спецификациям. Любой возможный запрос покупателя на проведение технической экспертизы должен основываться на соответствии проданных материалов указанным ПРОИЗВОДИТЕЛЕМ техническим спецификациям, действующим на то время в Португалии.

4. Цены и условия оплаты

4.1. Цены реализации ИЗДЕЛИЙ указаны в прейскуранте ПРОИЗВОДИТЕЛЯ, действующем на дату подтверждения заказа. Цена на ИЗДЕЛИЯ, предназначенные для зарубежных рынков, рассчитывается в иностранной валюте страны назначения или в евро, на выбор ПРОИЗВОДИТЕЛЯ.

4.2. Если не оговорено иное, оплата производится покупателем путем банковского перевода в течение 30 дней с момента выставления счета. Все банковские расходы и расходы по выплатам несет покупатель. В случае задержки оплаты ПРОИЗВОДИТЕЛЬ, наряду с возмещением любого другого ущерба, имеет право на получение процентных выплат за просроченный платеж в размере ставки EURIBOR сроком на 6 (шесть) месяцев плюс 5% без предварительного уведомления покупателя.

5. Посредники Производителя

5.1. Посредники ПРОИЗВОДИТЕЛЯ стимулируют продажу изделий и уполномочены действовать от имени и по поручению ПРОИЗВОДИТЕЛЯ исключительно при наличии конкретного письменного разрешения.

5.2. Заказы, собранные посредниками, не являются обязательными для исполнения ПРОИЗВОДИТЕЛЕМ, поэтому они должны быть прямо подтверждены в письменной форме самим ПРОИЗВОДИТЕЛЕМ.

6. Удержание права собственности

6.1. Стороны договорились, что продажа ИЗДЕЛИЙ осуществляется при условии удержания права собственности на них ПРОИЗВОДИТЕЛЕМ до полной выплаты покупателем обусловленной цены. Однако риск утери товаров переходит к покупателю в момент доставки ИЗДЕЛИЙ. В случае продаж в зарубежные страны, когда товары реализуются и поставляются третьим лицам в рамках обычной коммерческой деятельности Покупателя, а право собственности на товары еще не было передано, удержание права собственности на них ПРОИЗВОДИТЕЛЕМ остается в силе также в отношении третьих лиц, если это разрешено законом.

6.2. При задержке выплат ПРОИЗВОДИТЕЛЬ вправе, без каких-либо формальностей, в том числе без предварительного уведомления покупателя, собрать все товары, на которые распространяется право удержания собственности, если это разрешено законом, и все сопутствующие аккредитивы в отношении третьих лиц, прямо сохраняя за собой право обращаться в суд за компенсацией понесенных убытков.

7. Форс-мажор

7.1. ПРОИЗВОДИТЕЛЬ не несет ответственности перед покупателем за неисполнение контракта, в том числе за невыполнение или задержку поставки, вызванное событиями, не подлежащими разумному контролю ПРОИЗВОДИТЕЛЯ, такими как, например, невыполнение или задержка поставки рабочих материалов поставщиками, неисправности в работе фабрики, забастовки или другие профсоюзные действия, перебои с энергоснабжением, приостановка или трудности в работе транспорта.

8. Действующее законодательство. Компетентный суд

8.1. Договора о продаже на экспорт, стороной которых является ПРОИЗВОДИТЕЛЬ, регулируются, если это не отменено настоящими УСЛОВИЯМИ, Венской конвенцией о международных договорах купли-продажи товаров от 11 апреля 1980 г.

8.2. В случае споров, связанных с продажей ИЗДЕЛИЙ ПРОИЗВОДИТЕЛЯ и всеми другими сопутствующими вопросами, единственным компетентным судом является суд по месту регистрации ПРОИЗВОДИТЕЛЯ, это также касается принудительного обеспечения выполнения обязательств по аккредитивам, полученным ПРОИЗВОДИТЕЛЕМ в качестве средства платежа.

CERAMIC TILES

CONDIZIONI GENERALI DI VENDITA

1 – Applicabilità delle Condizioni

1.1. Le presenti condizioni generali (qui di seguito "le CONDIZIONI") costituiscono parte integrante di tutti i contratti di vendita delle piastrelle ed altro materiale ceramico (qui di seguito "il/i PRODOTTI") a cui sia parte Love Tiles – Gres Panaria Portugal, S.A. (qui di seguito "il FABBRICANTE").

1.2. Salvo singoli casi in cui esse siano state derogate con espresse pattuizioni scritte a firma del FABBRICANTE, esse costituiranno la disciplina esclusiva di tali vendite. Se una o più parti delle presenti CONDIZIONI o dei singoli contratti che le includano risultassero invalide, le CONDIZIONI generali o particolari resteranno valide nel loro complesso; le parti invalide saranno sostituite con pattuizioni che si avvicinino quanto possibile alla originaria volontà delle parti.

2. Conclusione del Contratto di Vendita - Consegna dei Prodotti

2.1. Il contratto si intende concluso al momento in cui il proponente o l'ordinante vengano a conoscenza del consenso scritto della controparte.

2.2. L'ordine non confermato per iscritto in nessun caso potrà intendersi accettato salvo esecuzione del medesimo da parte del FABBRICANTE mediante spedizione o consegna dei PRODOTTI. La consegna parziale di PRODOTTI ordinati non comporta l'accettazione dell'intero ordine, ma solo di quella parte di PRODOTTI effettivamente consegnata.

2.3. Salvo diverso accordo scritto, la consegna dei PRODOTTI avverrà esclusivamente nel territorio del Portogallo continentale.

2.4. Salvo diverso accordo, tutte le date indicate come termine di consegna si intendono a titolo indicativo.

3 - Caratteristiche dei Prodotti - Garanzia – Reclami

3.1. I PRODOTTI fabbricati da Love Tiles - Gres Panaria Portugal, S.A. sono conformi alle norme europee applicabili. Il FABBRICANTE vende esclusivamente a rivenditori professionali; questi sono responsabili della correttezza delle informazioni tecniche fornite agli utilizzatori finali e/o ai negozi al dettaglio.

La classificazione del prodotto è indicata dal FABBRICANTE sul materiale pubblicitario e/o sui listini prezzi. L'Acquirente deve di conseguenza utilizzare i PRODOTTI sulla base della classificazione fornita dal FABBRICANTE.

Per facilitare le indicazioni di utilizzo, ed adattare le classificazioni standard alle specificità della produzione del FABBRICANTE, a fronte di ogni prodotto, nei listini o sui cataloghi sono posti dei segni che indicano l'uso specifico consigliato dal FABBRICANTE.

3.2. Le eventuali differenze di tonalità o cromatiche non sono un difetto del PRODOTTO bensì una caratteristica specifica del materiale ceramico cotto ad alte temperature. Il particolare requisito di "ingelività" si applica solo ai PRODOTTI che il FABBRICANTE garantisce espressamente con apposita indicazione sul materiale pubblicitario e/o listini. In mancanza di tale indicazione i materiali ceramici si considerano solo ed unicamente per uso in interni o comunque in locali protetti dalle intemperie che potrebbero modificare le caratteristiche di resistenza o l'aspetto originale del PRODOTTO (es.: precipitazioni atmosferiche, sole, umidità, temperature basse, ecc.).

3.3. Le piastrelle con superficie levigata non possono mai essere utilizzate in locali a piano terreno con accesso all'esterno, né in locali in cui sia previsto un grande calpestio. Le piastrelle lucide sono inoltre suscettibili di una certa scivolosità, specialmente se bagnate: il FABBRICANTE ne sconsiglia di conseguenza l'uso in locali pubblici. Per i locali ove sia previsto un grande calpestio l'Acquirente dovrà acquistare solo i PRODOTTI classificati dal FABBRICANTE come "PEI V" o "Gres Porcellanato Tutta Massa", ed in particolare quei PRODOTTI che il FABBRICANTE consiglia specificatamente per uso in locali pubblici.

3.4. Le rappresentazioni dei PRODOTTI sui depliant ed altri materiali pubblicitari del FABBRICANTE sono puramente illustrative e non rappresentano necessariamente il risultato estetico finale di posa dello specifico PRODOTTO rappresentato.

3.5. Il FABBRICANTE garantisce la buona qualità e l'assenza di vizi nei PRODOTTI forniti. La garanzia non si applica per PRODOTTI classificati dal FABBRICANTE per qualità inferiori alla 1ª scelta o per partite di PRODOTTI di fine serie, vendute in blocco e segnalate come partite speciali.

3.6. Il FABBRICANTE non è responsabile per vizi e/o anomalie rilevate sui PRODOTTI non dovuti alla qualità dei PRODOTTI stessi ma all'uso improprio degli stessi da parte degli Acquirenti e/o dei suoi aventi causa. In particolare, il FABBRICANTE non accetta reclami o contestazioni in relazione alle situazioni precedentemente descritte.

3.7. I reclami devono essere comunicati dall'Acquirente al FABBRICANTE per iscritto entro 60 giorni dalla consegna della merce. Per vizi occulti il termine è di 60 giorni dalla scoperta del vizio. In nessun caso il FABBRICANTE risponderà per vizi che vengano denunciati dopo 12 mesi dalla consegna dei PRODOTTI all'Acquirente al primo acquirente del FABBRICANTE. A tal fine, il rivenditore potrà esercitare l'azione di regresso contro il FABBRICANTE esclusivamente entro il termine di 2 anni dalla consegna dei PRODOTTI.

3.8. In generale la garanzia si applica solo per vizi rilevati in prodotti non ancora posati. Per eventuali vizi occulti rilevabili solo successivamente alla posa, ai fini dell'applicazione della garanzia, è necessario che il FABBRICANTE accerti che la posa sia stata eseguita a regola d'arte (DIN 18352) e secondo le procedure descritte nel manuale di posa e manutenzione del FABBRICANTE.

3.9. La garanzia del FABBRICANTE si limita alla sostituzione dei prodotti difettosi con altri dello stesso tipo esenti da vizi, trasporto incluso. E' escluso il rimborso di altri oneri e/o spese accessorie e, in particolare, i costi di demolizione e riposatura dei PRODOTTI. In tutti i casi la garanzia del FABBRICANTE non potrà eccedere cinque volte il valore del materiale contestato, con un massimo assoluto di Euro 10.000 (diecimila).

3.10. Il FABBRICANTE non risponde per reclami dovuti ad una classificazione del materiale ceramico da parte di organismi di controllo e/o certificazione diversi dagli europei di cui all'articolo 3.1., sulla base di specifiche tecniche che non corrispondano a quelle utilizzate dal FABBRICANTE. Eventuali expertise tecnici attivati dagli Acquirenti dovranno necessariamente basarsi sulla conformità del materiale venduto alle specifiche tecniche indicate dal FABBRICANTE, in vigore nel Portogallo.

4 - Prezzi e Condizioni di Pagamento

4.1. I prezzi di vendita dei PRODOTTI sono quelli indicati nel listino del FABBRICANTE in vigore al momento della conferma dell'ordine. In casi di contratti di vendita a consegne ripartite il prezzo, se non convenuto fermo per iscritto, sarà quello del listino prezzi in vigore al momento delle singole consegne.

Per tutti i PRODOTTI destinati all'estero i prezzi potranno essere calcolati, a scelta del FABBRICANTE, nella valuta estera del paese di destinazione o in Euro.

4.2. Salvo diverso accordo, i pagamenti sono da effettuarsi dall'Acquirente, tramite bonifico bancario, entro 30 giorni data fattura. Tutte le spese bancarie e di negoziazione sono a carico dell'Acquirente. In caso di ritardo nei pagamenti, il FABBRICANTE avrà diritto a percepire, senza alcuna necessità di messa in mora, oltre agli eventuali danni, un interesse moratorio pari al tasso EURIBOR a 6 mesi maggiorato del 5%.

5 – Agenti del Fabbricante

5.1. Gli agenti del FABBRICANTE promuovono le vendite e non sono autorizzati ad agire in nome e per conto del FABBRICANTE salvo specifica autorizzazione scritta.

5.2. Gli ordini trasmessi dagli agenti non vincolano il FABBRICANTE e devono quindi essere espressamente accettati per iscritto dal FABBRICANTE stesso.

6 – Riservato Dominio

6.1. E' convenuto tra le parti che la vendita dei PRODOTTI è effettuata con riserva di proprietà a favore del FABBRICANTE sino al totale pagamento del prezzo pattuito. Tuttavia il rischio di perimento della merce passa all'Acquirente dal momento della consegna dei PRODOTTI.

6.2. Nelle vendite all'estero, nel caso in cui la merce sia venduta e consegnata a clienti terzi prima del passaggio di proprietà, nell'ambito di normali rapporti commerciali dell'Acquirente stesso, la riserva di proprietà a favore del FABBRICANTE permane anche nei confronti dei terzi, ove la legge lo consenta.

6.3 In caso di mora dell'Acquirente il FABBRICANTE potrà, senza necessità di alcuna formalità, compresa la messa in mora, ritirare tutta la merce oggetto di riservato dominio ed eventualmente, se la legge lo consente, tutti i titoli di credito verso terzi ad essa afferenti, con riserva di ogni ulteriore opportuno rimedio in via giudiziale per il pregiudizio subito.

7 – Forza Maggiore

7.1. Il FABBRICANTE non è responsabile nei confronti dell'Acquirente per ogni inadempimento, compresa la mancata o ritardata consegna del PRODOTTO, causata da eventi al di fuori del suo ragionevole controllo quali, a titolo meramente indicativo, mancata o ritardata consegna dei materiali di lavorazione da parte dei fornitori, guasti agli impianti, scioperi e altre azioni sindacali, interruzione dei flussi energetici, sospensione o difficoltà nei trasporti

8 - Diritto Applicabile - Foro Competente

8.1. I contratti di vendita all'esportazione cui sia parte il FABBRICANTE sono regolati, ove non derogata dalle presenti CONDIZIONI, dalla Convenzione di Vienna dell'11 aprile 1980 sui contratti di vendita internazionale di beni mobili.

8.2. Foro competente per tutte le controversie relative alle vendite di PRODOTTI da parte del FABBRICANTE e dei rapporti connessi a tali vendite è il FORO della sede legale del FABBRICANTE, anche qualora l'azione promossa riguardi titoli di credito rilasciati al FABBRICANTE quali mezzi di pagamento.
